

BOARD OF TRANSPORTATION MEETING

October 6 - 7, 2010

Call to Order

Chairman Collier called the meeting of the Board of Transportation to order at 11:25 a.m., Wednesday, October 6, 2010 in Sylva, North Carolina with the following members present:

White, Overholt, Alford, Tulloss, Szlosberg-Landis, Ciccone, Fox, Wall, Burns, Womble, Perkins, Collett, Halsey, Proffitt, Burrell

Members McNairy and Watts were absent.

Chairman's Opening Remarks

Chairman Collier He thanked Board Members Wanda Proffitt and Conrad Burrell and Division Engineers Jay Swain and Joel Setzer for all of the time and work involved in planning the meeting in the Western part of the state. Chairman Collier introduced Board Member Wanda Proffitt.

Mrs. Proffitt welcomed everyone to Western North Carolina. She stated the importance of road needs in this area of the state.

Regional Overview of Western North Carolina

Board Member Wanda Proffitt introduced Scott Hamilton, President and CEO of Advantage West Economic Development Group. Mr. Hamilton shared some regional facts regarding the western portion of North Carolina. There are 23 counties that cover 9,629 square miles. There are 1,320 manufacturing firms in the region. Western North Carolina is home to 11 community colleges, 3 universities, and 6 private colleges. AdvantageGreen, which is an AdvantageWest job creation initiative, will develop and structure the foundation for future

business development in the green economy in the region. The region is served by I-26 & I-40 with direct interstate access to I-85, I-77 and I-81.

Comments from Board Member Conrad Burrell

Board Member Conrad Burrell thanked Mr. Hamilton for his presentation. He recognized Ms. Sharon Grasty with Southwestern Community College and thanked her for all of her work in making the meeting possible. Board Member Burrell introduced Brian McMahan, Chairman of the Jackson County Board of Commissioners. Mr. McMahan welcomed everyone to Jackson County and thanked the Board of Transportation for visiting western North Carolina. He also expressed appreciation for all of the transportation work that is taking place in this area. Board Member Burrell introduced Dr. Richard Collins, President of Southwestern Community College. Dr. Collins thanked Board Member Burrell for all the work he does for this area of the state. Dr. Collins discussed how important roads are all over the state; however, they are very important in this rough area. He asked that NCDOT please keep the good roads coming to the area. Dr. Collins introduced Dr. John Bardo, Chancellor, Western Carolina University.

Presentation by Dr. John Bardo

Dr. Bardo shared information with the Board regarding the economy and how it is affecting the state. He stated the key issues are economic processes, sustainable communities “Stewards of Place”, and characteristics of education that support the region’s and state’s future. Globalization has changed the playing field tremendously. North Carolina traditionally competed with other states for economic development. Today, the real competitors for all states are overseas. Dr. Bardo stated there are two economic processes underway simultaneously: globalization and regionalization. According to Florida, as well as researchers at Virginia Tech, the United States is reorganizing its economy into 10 super regions. One of these super regions is centered on the I-85 Corridor between Raleigh and Atlanta. The super

region is called either “Charlanta” or the “Southern Piedmont Megapolitan”. If “Charlanta” were a country, before the downturn its GDP would have been larger than that of India. Dr. Bardo expressed the key issue cannot be about just creating jobs. It is about creating the right jobs within the right context. He stated how important it is to educate for the future.

Recess

The Board meeting was recessed until 9:00 a.m., Thursday, October 7, 2010.

Call to Order – October 7, 2010

Chairman Collier called the meeting of the Board of Transportation to order at 9:01 a.m., Thursday, October 7, 2010 in Asheville, North Carolina with the following members present:

White, Overholt, Alford, Tulloss, Szlosberg-Landis, Ciccone, Fox, Wall, Burns, Womble, Perkins, Collett, Halsey, Proffitt, Burrell

Members McNairy and Watts were absent.

Invocation

The invocation was offered by Board Member Burrell.

Ethics Statement

Chairman Collier read the Ethics Statement advising any Board Member that may have a conflict of interest or appearance of conflict to abstain from participation in that particular item and to file the proper paper work with the Secretary to the Board.

Welcome from Mayor

Chairman Collier introduced Terry Bellamy, Mayor of Asheville. Mayor Bellamy welcomed everyone to Asheville. She thanked Division Engineer Jay Swain for all of his work. She stated that he always makes sure Asheville and Buncombe County have what they need. She also thanked Board Member Wanda Proffitt for all that she does for the area. Mayor Bellamy shared information regarding transportation needs in the Asheville area and asked that the Board continue to make plans for improvements.

Secretary Conti's Comments

Secretary Conti welcomed everyone to Asheville and thanked Board Members Wanda Proffitt and Conrad Burrell for arranging to have the meeting in the Western part of the state. He stated that this helps the Board see firsthand the unique challenges and interesting opportunities facing different areas of our state.

He shared information with the Board regarding NCDOT's response to Tropical Storm Nicole. This storm took a severe toll on eastern North Carolina. There were 19 counties that were hit so hard they are requesting state and federal assistance. Many roads and bridges are still underwater. NCDOT employees across the region are working hard to keep flooded roads closed and put detours in place. Where the water has receded, they are conducting inspections

and making any necessary repairs. The Ferry Division is also doing its best to get service running again, despite high water on some routes.

North Carolina also had to deal with Hurricane Earl. With both storms, this means a lot of long hours for our crews on the coast. They have been very busy pushing sand and monitoring water levels so we can get the roads open as soon as possible. Secretary Conti commended all those who responded to Hurricane Earl and Tropical Storm Nicole.

Secretary Conti informed the Board that on October 1, 2010, NCDOT launched its second public comment period involving the Mobility Fund. Citizens are being asked to review two things: A potential set of minimum requirements for each candidate project and two potential scoring options. This framework was created using feedback from the first public comment period. The responses that are received will create a final prioritization process which will be presented to legislators in December. The legislature has already selected the first project to receive Mobility Fund dollars. It is Phase 2 of the Yadkin River bridge project in Division 9. The groundbreaking for Phase 1 has taken place and the project is expected to be completed in 2013.

Secretary Conti participated in the dedication of the Sunset Beach Bridge in honor of Mannon C. Gore on October 1, 2010. He stated that construction of the new bridge is almost complete. It is expected to open to traffic by the end of the month.

There are many other transportation projects that will soon get under way thanks to Powell Bill funds. NCDOT has just awarded nearly \$130 million to more than 500 cities and towns in North Carolina. This funding comes from revenues generated by the state gas tax and other highway user fees. He also stated that there are improvements designated for Train Stations and Passenger Train Maintenance Facilities located between Raleigh and Charlotte. The Rail Division is spending \$43 million to better accommodate passengers at each of the nine stations along the Southeast High Speed Rail Corridor. The funding will come from \$545 million in American Recovery and Reinvestment Act money awarded to the state earlier this year.

The North Carolina Chapter of the American Planning Association has given the Division of Bicycle and Pedestrian Transportation, and the Transportation Planning Branch the 2010 Marvin Collins Award. The award was given for leadership of “outstanding initiatives to develop, plan and implement innovative transportation planning.”

He shared with the Board that the Communications Office won two “Spuddies” at the National Transportation Public Affairs Workshop in Boise, ID last month. The awards were for “best Photograph” for Katy Warner’s picture of the rockslide stabilization efforts along I-40 near the Tennessee state line and the “Best Public Involvement Plan” for the Driving 95 Campaign. It was announced during the conference that NCDOT will host NTPAW in 2012.

Secretary Conti extended thanks to the crew of the Motor Vessel Lupton for saving a boater in distress. The man was on the Neuse River when his boat began to take on water. Employees at the Cherry Branch Terminal could see him bailing water from his sinking boat. While the Coast Guard was en route, they asked the crew of the Lupton to assist the man. The ferry’s small boat was used to rescue the man. This is another example of safety being NCDOT’s number one priority.

Approval – Minutes of September 1 – 2, 2010 Board Meeting

The minutes of the September 1 – 2, 2010 Board of Transportation Meeting were unanimously approved upon a motion by Board Member Burrell, which was seconded by Board Member Perkins.

Approval – Award of Highway Construction Contracts in the September, 2010 Letting

Projects were awarded by the Secretary to the low bidder on all projects except for Project U-5018A in Pitt County. This Project had some confusion among the bidders regarding the contract requirements resulting in the Department not receiving bids that were in the best interest to the state. The Secretary rejected all bids on that Project. The Project requirements will be clarified and the Project will be re-advertised.

Board Member Overholt abstained from voting on Projects R-5216 in Brunswick County and Project C202612 in Wake County.

Award of all contracts covering the use of Federal-aid highway funds is subject to concurrence by the Federal Highway Administration.

Job Access Reverse Commute (JARC) Program

Job Access Reverse Commute (JARC) is a program available through the Federal Transit Administration of the U.S. Department of Transportation. The purpose of the JARC grant program is to assist in developing new or expanded transportation services such as shuttles, vanpools, guaranteed rides home or connector/feeder services that connect employee to jobs and other employee related services. Job Access project are targeted at developing new or expanded transportation services for welfare recipients and/or low income persons. Reverse commute projects can provide transportation services to sub-urban or rural employment locations for all populations. The primary objective is to provide connectivity to welfare recipients and other low-income persons to jobs and other support services.

Eligible capital projects will be funded 80% by the Federal Transit Administration (FTA) Section 5316 Nonurbanized Area Formula Program Funds. The department will provide a 10% state match for the capital projects and the remaining 10% will be provided by the grant recipient. Eligible operating expenses will be funded 50% and 50% will be provide by the grant recipient and can include other federally funded programs that provide client transportation services. Share.

This is to request Board of Transportation approval to provide State funds totaling \$109,714 to the projects as specified below and to submit a Section 5316 application to the FTA in the amount of \$1,917,557 in Federal funds, enter into an agreement and provide the necessary state match.

Division 4

Project No. 11-JA-903	Turning Point Workforce Development Board, Inc. is requesting funds for a newproject that focuses on serving the employment transportation needs of the low-income, including youth, elderly and disabled persons within Wilson, Nash, Edgecombe, Halifax and Northhampton Counties. While there are several public transportation systems that operate within the area, service gaps identified in the Local Coordinated Plans include expanded employment transportation and improved communication regarding existing services. The region's workforce development board will create a mobility manager position to better target populations about existing services; create regional employment related communications; and plan and manage expanded services throughout the 5-county area. The operations portion of the JARC program provides estimated 13,500 trips through purchase of service with existing area private operators. (Category B)	<u>Capital</u>

Project No.	Iredell County (operating as Iredell County Area Transit	<u>Operating</u>	
11-JA-024	System) will add peak hour Job Access Reverse Commute service to be operated in tandem with current evening and weekend JARC service which has now been operating for several years. The county received a JARC grant last year to provide this service; however, demand due to the 13% unemployment rate in the county exceeds available funds. This project will expand the capacity of the Section 5311 transit provider to meet the increasing employment transportation needs throughout the county. In addition to the trips between the hours of 8 am and 5 pm from, Monday through Saturday, the provider will determine the demand for Sunday service. The inability to provide access to job training and employment for residents throughout the county was a prime service gap identified in the county's locally coordinated transportation plan.	\$173,915	Total

SECTION 5310 Elderly Individuals and Individuals with Disabilities Program

The goal of the Section 5310 Program is to enhance coordination of federally assisted programs and services in order to ensure elderly persons and persons with disabilities have the same right as all people to utilize public transportation facilities and services. The specific objective of Section 5310 is to provide transportation services that meet the special needs of elderly persons and persons with disabilities for whom mass transportation services are unavailable, insufficient or inappropriate.

The Public Transportation Division, through the Section 5310 Program, provides grants to nonprofit corporations and associations, public bodies approved by the state to coordinate services for elderly persons and persons with disabilities, or public bodies which certify to the Governor that no nonprofit corporation or association is readily available in an area to provide the service.

Eligible capital projects will be funded 80% by the Section 5310 program funds. The department will provide a 10% state match for the capital projects, and the remaining 10% will come from an eligible local share. The section 5310 is unique in that some senior and disabled services are eligible for 80% federal participation.

Eligible operating expenses will be funded 50% by the FTA Section 5310 program funds and 50% will come from eligible local funds.

This is to request Board of Transportation approval to provide State funds totaling \$301,232 to the projects as specified below and to submit a Section 5310 application to the FTA in the amount of \$3,815,292 in Federal funds, enter into an agreement and provide the necessary state match.

SECTION 5317 New Freedom Program

The purpose of the Section 5317 program is to encourage services and facility improvements to address the transportation needs of persons with disabilities that go beyond those required by the Americans with Disabilities Act (ADA). New Freedom grants are intended to provide additional tools to overcome existing barriers facing persons with disabilities that are seeking integration into the work force and full participation in society.

Funds are available to support the capital and operating costs of new public transportation service targeted toward people with disabilities or public transportation alternatives that go beyond those required by the ADA. All projects funded under this program must be derived from a locally developed, coordinated public transit-human services transportation planning process and included in an approved regional plan.

Eligible capital projects will be funded 80% by FTA Section 5317 program funds. The department will provide a 10% state match for the capital projects, the remaining 10% will come from an eligible local source. Eligible operating expenses will be funded 50% by the federal program funds and 50% must come from an eligible local share.

This is to request Board of Transportation approval to provide State funds totaling \$8,330 to the projects as specified below and to submit a Section 5317 application to the FTA in the amount of \$294,486 in Federal funds, enter into an agreement and provide the necessary state match.

Division 10

WBS 42454	State funds are requested for the Rail Division's Safety & Security Unit for the current fiscal year. The funds will be used to support a Rail Safety Oversight Inspector position. This Inspector will conduct audits and reviews of the Charlotte Area Transit System (CATS) Safety and Security Program. The program plan calls for administrative efforts to ensure that CATS identifies and corrects public and operational hazards within the rail system. The funds will also be used to upgrade the comprehensive web based accident and management application. The current application is used in the test phase and will be further developed, tested and implemented as a means of augmenting the current Federal Transit Administration safety program in North Carolina.	\$130,000	State

Rail Program

Town/County		Estimated Cost
Division	Project Description	
1. Statewide	Board approval is requested for an annual operating agreement between the Department and the National Railroad Passenger Corporation (Amtrak) for rail passenger service under the name <i>Carolinian</i> between Washington, D.C. and Charlotte, and under the name <i>Piedmont</i> between Raleigh and Charlotte. The previous agreement provided service through September 30, 2010 and has been continued by an extension agreement pending approval of a new operating agreement. The operating cost for the service between October 1, 2010 and September 30, 2011 is estimated to be up to \$4,149,176 (\$345,765/month), including the actual costs for locomotive fuel and host railroad payments. WBS 32162 and 42801.3.1	\$4,149,176
2. Statewide	Additional State Rail funds are needed to complete the State Rail Plan in conformance with PRIIA and the National Rail Plan. The Plan will provide a vision for the future of rail throughout the State of North Carolina incorporating issues of local and state importance, as well as issues of regional and national significance. The rail plan will describe the current status of the rail system, demonstrate the demand for and the benefits of the rail system, identify needs, and provide a strategic vision and implementation steps. WBS 39854	\$150,000
3. Statewide	Additional State Rail funds are needed for Rail intermodal and environmental engineer salaries and statewide environmental and feasibility studies to cover the 12-month period ending June 30, 2011. WBS 42000	\$100,000

4. Statewide	Additional State Rail funds are needed for Rail Environmental and Planning Branch administration, travel expenses and supplies for the 12-month period ending June 30, 2011. WBS 42001	\$5,000
5. Statewide	State Rail funds are needed to complete the analysis of passenger rail corridors including market analysis and forecasts of ridership and revenue. WBS 43095	\$315,000
6. Washington Co. Division 1	State Rail Industrial Access funds are needed to partially finance the costs of constructing a rail industrial access track to serve Project Beach. The company is considering constructing a new facility within the county. The company proposes to hire about 25 new employees, preserve 33 jobs and make a capital investment of about \$33 million. They plan to receive at least 5,000 carloads of rail freight per year. Funding is contingent upon an environmental review and all other Rail Industrial Access Program requirements being satisfied and is conditional on implementation of transportation improvements necessary to protect the safety of the public contractors and employees of Project Beach. Funding is contingent upon a construction schedule that complies with grant requirements. WBS 43093	Up to \$150,000
7. Town of Cary Wake County Division 5	In order to expedite the construction schedule, an agenda handout item is anticipated to recommend award for the contract for the Cary Depot Expansion project to the lowest, responsible, responsive bidder. The project consists of expansion of the passenger waiting room from 500 to 2,400 square feet; addition of facilities for Amtrak ticketing and baggage; addition of 5 shelters to platforms for protection from inclement weather; addition of a 200 foot extension to the platform to allow more efficient and timely boarding of passengers and to accommodate longer trains, and addition of 21 parking spaces to accommodate additional customers. The project will meet all requirements of the American Recovery and Reinvestment Act through the Federal Railroad Administration.	Up to \$2,248,722
8. Norfolk Southern Railway Company (NSR)	Approval is requested to enter into a construction agreement with Norfolk Southern Railway Company for flagging and signal cable relocation needed for the Cary Depot Expansion project. The total estimated cost of the project is \$120,000 and will be 100% funded by American Recovery and Reinvestment Act funds.	\$120,000

Approval – Municipal and Special Agreements

A motion was made by Board Member Fox, which was seconded by Board Member Proffitt, to approve the following agreements:

SUMMARY: There are a total of 30 agreements for approval by the Board of Transportation.

Division 1

City of Elizabeth City
Camden and Pasquotank Counties
U-4438
35742.3.1

This project consists of roadway improvements from US 17 Business (North Road Street) to east of the Pasquotank River and shall include replacing Bridge No. 19 over the Pasquotank River. The Department shall prepare the environmental and/or planning document, project plans and specifications, construct the project, and acquire any needed right of way. The Municipality shall relocate and adjust any municipally-owned utilities located outside Elizabeth Street, except those where the proposed utilities cross Elizabeth Street, and any utilities under franchise. The Department shall relocate the remaining water and sewer lines that cross Elizabeth Street.

Division 2

Greenville Utilities Commission
Pitt County
U-5018 A
41431.3.2

This project consists of improvements to NC 43 from west of US 264 (Martin Luther King, Jr. Hwy.) to SR 1204 (B's Barbeque Road) in Pitt County. The Department shall be responsible for all phases of the project. At the request of the GUC, the Department shall include provisions in the construction contract for the contractor to install GUC-owned water and sewer lines. The GUC shall reimburse the Department the entire cost of said utility work. Estimated cost to the GUC is \$588,791.40.

Town of Pine Knoll Shores
Carteret County
ER-2971 B
3602.3.07

This project consists of construction of 5-foot sidewalks at several locations in Pine Knolls Shores identified in the agreement. The Municipality shall be responsible for all phases of the project. The Department shall participate in the actual construction costs of the project in an amount not to exceed \$55,000 from Division Enhancement Funds. Costs which exceed this amount shall be borne by the Municipality.

Division 3

Town of Burgaw
Pender County
SR-5001 BC
40924.1.33
40924.3.54

This project consists of federal Safe Routes to School funding for the construction of sidewalks at locations identified in the agreement serving the Burgaw Middle and Burgaw Elementary Schools in Burgaw. The Municipality shall be responsible for all phases of the project. The Department shall reimburse the Municipality 100% of the approved eligible costs covered under this Agreement up to the maximum federal award amount of \$65,173. The Municipality will be responsible for all costs that exceed the federal award amount.

Division 5

Town of Apex
Wake County
EL-5100 DB
41821.1.9
41821.2.9
41821.3.9

Certain changes in right of way, construction and drainage easements, and control of access have been necessitated by alterations in the construction plans of these projects. Amended plan sheets for these projects have been prepared which provide for changes of certain right of way areas, construction and drainage easements and control of access.

The Board finds that the revised areas of right of way, construction and drainage easements and control of access, as shown on the amended plan sheets hereinafter set out, are for a public purpose and are necessary for the construction of projects.

The right of way, construction and drainage easements and control of access are hereby revised as shown on the plan sheets incorporated herein as an addendum, said projects, date of original final approval, and revised right of way, easements and access being as follows:
