PROCEDURE:

<input type="text"/>	<input type="text"/>
----------------------	----------------------

Preparation and knowledge of procedure

Was unable or neglected to evaluate the patient. Poor understanding of indications, relevant anatomy and technique.

1 2

Evaluated the patient appropriately. Understood all important indications, steps and relevant anatomy.

3 4

Evaluated the patient thoroughly and skillfully. Demonstrated deep familiarity with all steps of procedure and relevant anatomy.

5 NA

Did not organize equipment well. Had to stop procedure frequently to prepare equipment.

1 2

Equipment is generally organized. Occasionally had to stop and prepare equipment.

3 4

All equipment neatly organized prepared and ready for use.

5 NA

Was unable or neglected to use appropriate aseptic technique

1 2

Used proper aseptic technique most of the time

3 4

Used proper aseptic technique at all times

5 NA

Respect for patient

Was unable or neglected to respect patient's concerns and needs. Did not or was unable to discuss indications, risks and alternatives.

1 2

Generally respected patient's concerns and needs. Discussed the main indications, risks and alternatives.

3 4

Consistently respected patient's concerns and needs. Discussed skillfully the indications, risks and alternatives.

5 NA

Use of force and handling of tissue

Frequently used too little or unnecessary force on tissue, or caused avoidable damage.

1 2

Used force appropriately and handled tissue carefully, but occasionally caused inadvertent damage.

3 4

Consistently handled tissue appropriately with minimal damage.

5 NA

Time and motion, and flow of procedure

Many unnecessary moves.

1 2

Efficient time/motion but some unnecessary moves.

3 4

Clear economy of movement and maximum efficiency.

5 NA

Frequently stopped procedure and seemed unsure of next move.

1 2

Demonstrated some forward planning with reasonable progression of procedure.

3 4

Obviously planned course of procedure with effortless flow from one move to the next.

5 NA

Instrument/device handling

Repeatedly made tentative or awkward moves with instruments or devices.

1 2

Competent use of instruments or devices but occasionally appeared stiff or awkward.

3 4

Fluid moves with instruments or devices and no awkwardness.

5 NA

Use of assistants

Consistently placed assistants poorly or failed to use assistants.

1 2

Appropriate use of assistants most of the time.

3 4

Strategically used assistants to the best advantage at all times.

5 NA

Overall performance
