2.3. Object of the acquisition

RSGBL promoted by Chowdhary Family is one of the corporate conglomerates in operation since 1990 and has been a successful business venture engaged in Corn Wet milling business. The company since coming into production of Corn Starches grew exponentially employing both the organic and inorganic strategies and became the largest Corn Wet Milling Company in the country with multi location plants. In the year 2012 RSGBL divested its assets of Corn Wet milling business under the scheme of demerger which generated healthy cash flows. Post divestment RSGBL has been looking for business opportunities which could form a base of its further growth cycle.

An opportunity to takeover present business of Shree Rama was seized as the RSGBL and its management feels that it is one of the good strategy of entering newsprint business. Notes:

- (a) The Company has commodity trade receivables amounting to ₹7,594.82 lacs (Previous Years: ₹7,623.55 lacs) as at March 31, 2015 pertaining to various commodities contracts executed through brokers on the National Spot Exchange Limited (NSEL). Over past few months, NSEL is unable to fulfill its scheduled payment obligations as agreed by them. Consequently, the Company has pursued a legal action against NSEL through NSEL Investor Forum which has also filed complaint in Economic Offences Wing of Mumbai (EOW). Considering the recent development and action taken by EOW against various borrowers of NSEL, the Company believes that it shall recover the outstanding dues over a period of time and therefore, the management believes that no provision is required to be made for the quarter and year ended March 31, 2015. The Company has received ₹Nil (Previous Year: ₹5.79 lacs) between period ending March 31, 2015 and date of adoption of accounts by the Board of Directors.

The Statutory auditors have qualified their audit report for the year ended March 31, 2015 and March 31, 2014 for their inability to determine the amount of provision for doubtful receivables that may be required to be made in respect of the above matter.

- (b) The Company's fixed assets include windmills having generating capacity of 33.5 MW and carrying amount of ₹11,731.75 lacs as at March 31, 2015. The Company has entered into long term Power Purchase Agreement (PPA) in 2012 with State Distribution Corporations (Discoms) for a period ranging from 13-25 years based on a substantially fixed tariff per unit.

An incessantly lower Plant Load Factor (PLF) of windmills than expected over last few years of operations due to non-availability of grid and land related issues has triggered assessment of recoverable amount of the windmills in terms of Accounting Standard (AS) 28, Impairment of Assets. For the purpose of said assessment, windmills considered as a cash generating unit. The 'Recoverable Amount' of windmills measured on the basis of its Value in Use by estimating the future cash inflows over the estimated useful life of the windmills. The cash flow projections are based on estimates and assumptions relating to tariff, operational performance of the windmills, terminal value etc., which are considered reasonable by the management.

On a careful evaluation of the aforesaid factors, the management has concluded that the Recoverable Amounts of the windmills are lower than their carrying amounts as at March 31, 2015. Accordingly, the Company has recognized impairment loss of ₹1,075.69 lacs during the year towards windmill. In case, these estimates and assumptions change in future, there could be a corresponding impact on the Recoverable Amounts of the windmills.

- (c) The Board of directors recommended dividend of ₹3/- per equity share for the financial year March 31, 2105 of face value of ₹10 each which is subject to the approval by shareholders of the Company
