# Planetary Travel Project

## Introduction:

The year is 2050, and space travel is no longer science fiction. You are employed by a major advertising company, and your latest assignment is to prepare a travel presentation for another planet in our solar system!! The planets are a hot travel spot for the upcoming spring break because this will be the first time that citizens of the World have the opportunity to visit and vacation on the planet of their choice.

In this project, your job is to create an electronic travel brochure that will entice vacationers to visit your planet. You will need to convince potential clients that your planet guarantees tourists the ultimate spring getaway!! The project will include four phases; (1) researching your planet, (2) planning the travel presentation, (3) creating a PowerPoint slide show, and (4) sharing your finished product with the class.

Your presentation will include a **minimum** of 6 PowerPoint slides. Please follow the outline below.

### Slide 1: Introduction

: Photographs and a creative slogan that will appeal to tourists.

### Slide 2: Statistics

: Describe your planet using data from the Planet Trading Card Game.

### Slide 3: Climate

- : Is there an atmosphere?
- : What would the temperature and weather be like?
- : What types of clothing should travelers pack?

### Slide 4: Geography

- : Is the planet terrestrial or gaseous?
- : What types of geographical features would be interesting to visit?

### Slide 5: Attractions

- : What is available in terms of recreation and entertainment?
- : Use your creativity and imagination!!!

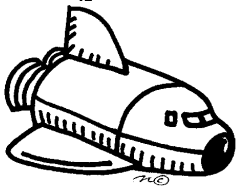

### Slide 6: Closing

: More photographs and a closing slogan.

**Research Template:**

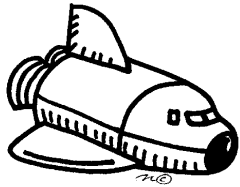

**Statistics**

**Climate**

**Geography**

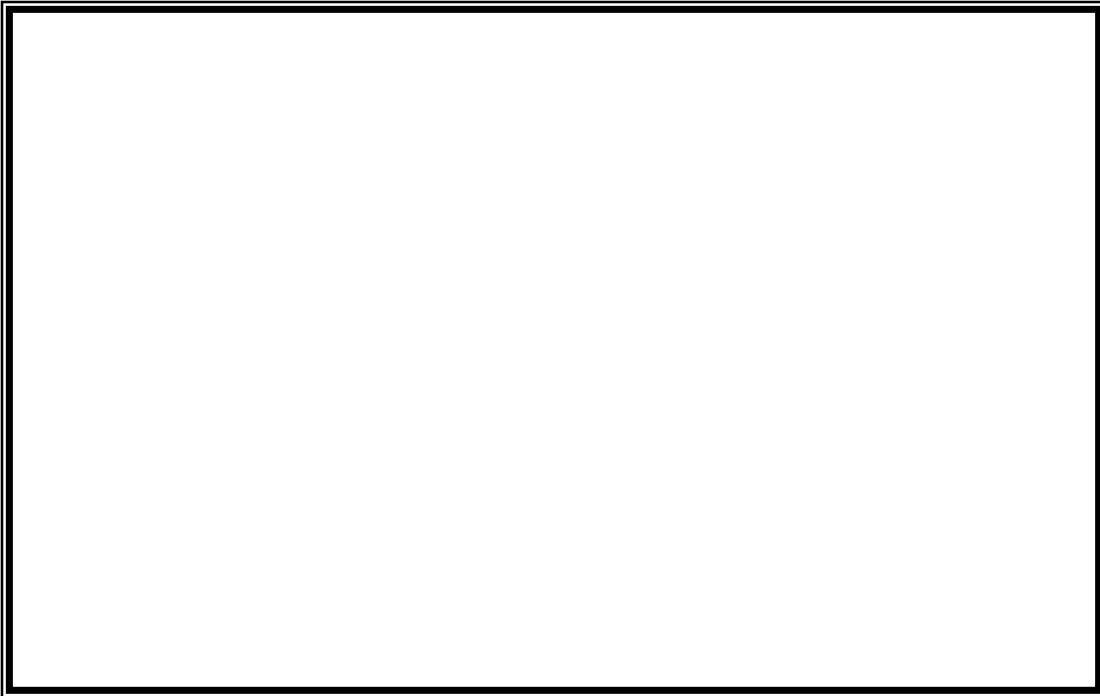

**Other interesting facts that add to the creativity of your project!**

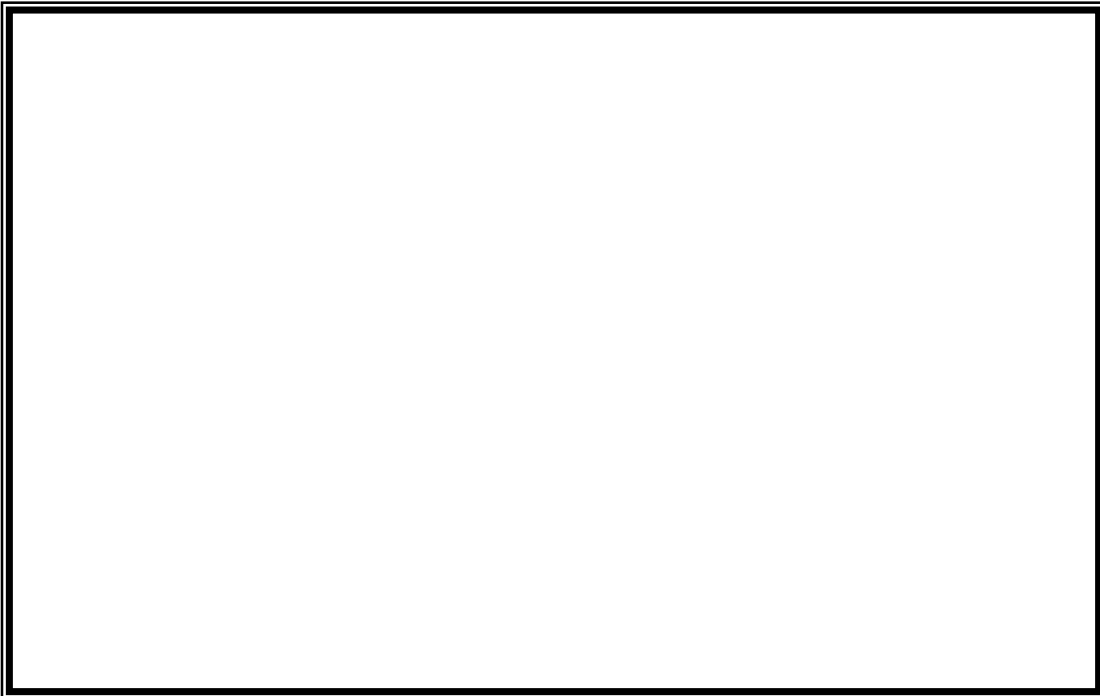

**PowerPoint Slide Template:**

**Slide 1: Introduction**

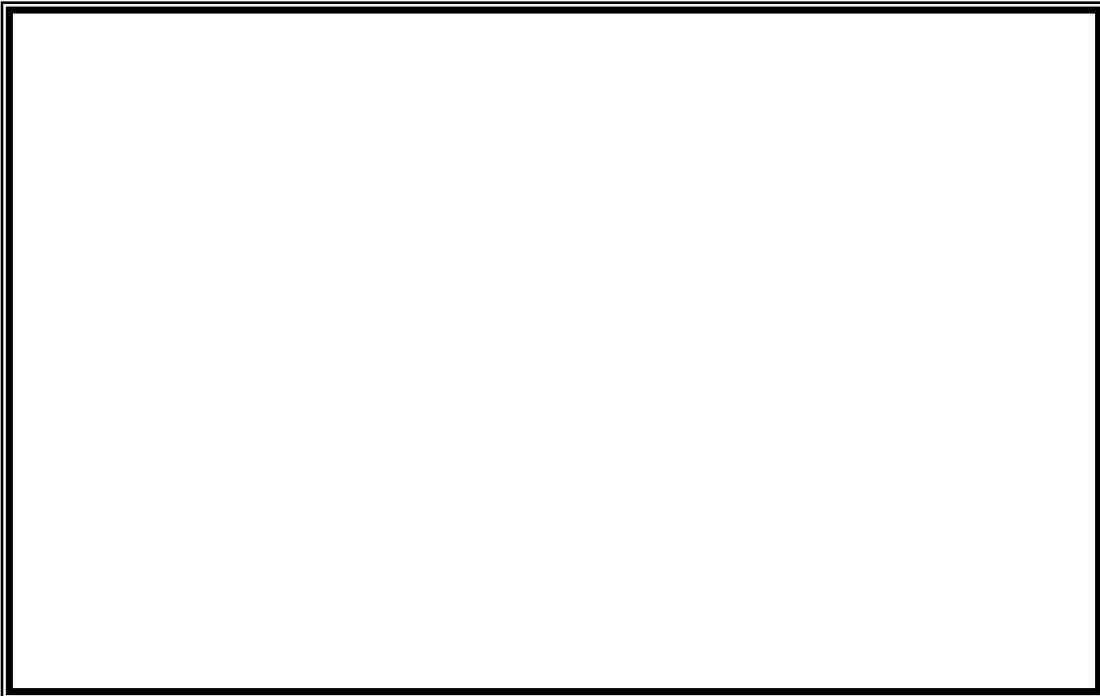

**Slide 2: Statistics**

**Slide 3: Climate**

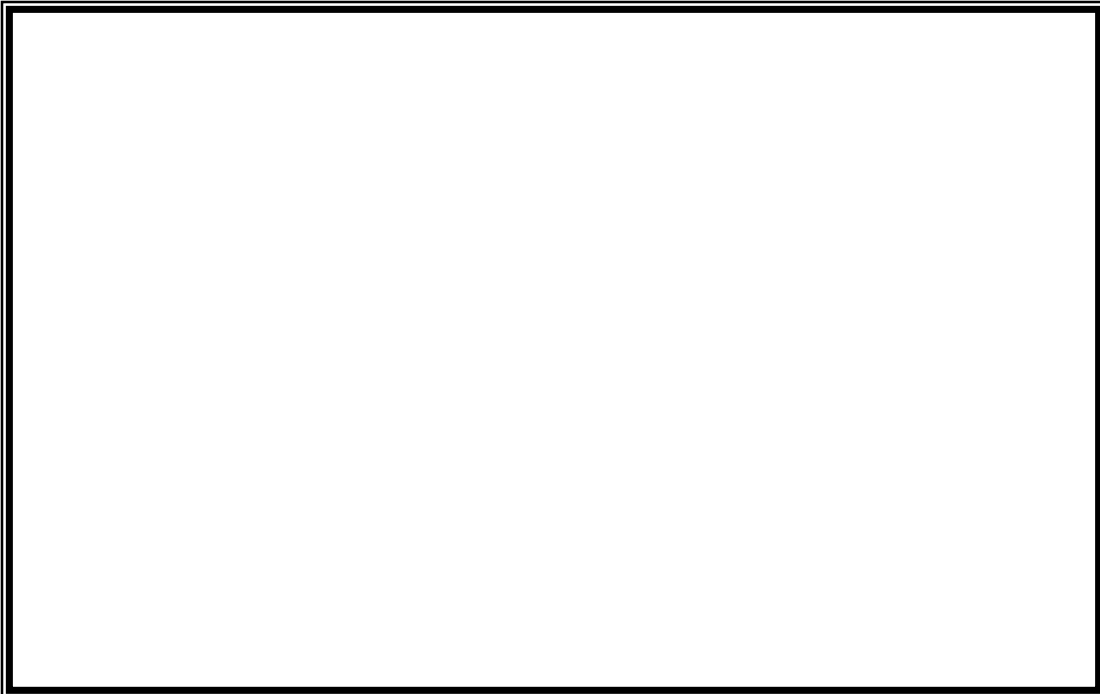

**Slide 4: Geography**

**Slide 5: Attractions**

**Slide 6: Closing**

**This assignment will be evaluated on effort, scientific accuracy, and creativity. See the project rubric for a detailed description of grading criteria.**
