SEWAGE DISPOSAL ~ Requires a Separate Septic Application. Have You Applied For Any Of The Permits Below?

Construction Permit (construct a new system) Authoriation (hook into existing system, increasing bedrooms) Repair (repairing existing system)

Permit Terms & Conditions. The permit holder must initial that you have read and understand the following:
Application Expiration: An application will expire within 180 days after being submitted if it is not issued. To avoid expiration, an extension needs to be submitted in writing showing justifiable cause to extend the application prior to 180 days of inactivity. Applications not requiring plan review may be granted for 180 days and an application requiring plan review can only be extended once.
Permit Expiration: A permit expires if work is not commenced within 180 days of permit issuance or if construction or work is suspended or abandoned for a period of 180 days at any time after work is commenced. To avoid permit expiration, a progress report (showing progress toward the permit) needs to be submitted in writing or an extension request needs to be submitted in writing showing justifiable cause to extend the permit prior to 180 days of inactivity, otherwise the permit will be expired. A one time extension may be granted for an additional 180 days.
Transferability: I understand as long as no changes have been made in the original plans, specifications and valuation of a permit, the current permit holder may request to transfer a permit to another permit holder upon submittal of the Permit Transfer Request Form and a transfer fee. If there are changes to the plans, specifications or valuation for the work being done on a permit, a new permit will need to be applied for.
Refunds: I understand refunds may be requested upon written request of permit deposit/fees paid within 180 days of fee payment, less any plan review fees, landuse site review fees, administrative fees and state surcharge fees, for a permit under which no work has commenced. Refunds amounting to less than \$10 will not be processed.
Renewals: I understand a manufactured structure permit may be renewed within 180 days of expiration of the permit upon submittal of the Permit Renewal Request Form, provided no changes have been made in the original plans and specifications for the work. The renewal fee would be ½ the amount required for a new manufactured structure permit. Permits that have been cancelled and/or refunded are not eligible for renewal.

Property Owner Installation	Contractor Installation
<p>This installation is being made on residential or farm property owned by me or a member of my immediate family, and is exempt from licensing requirements under ORS 701.010. I agree to construct the proposed structure according to the submitted plans and specifications, the laws of the State of Oregon, applicable Oregon Specialty Code, Ordinances of Polk County and I further expressly warrant that I comply with the provisions of ORS 701.005 to 701.056. By my signature below, I certify that I have read this application in its entirety and certify that the stated information is true and correct to the best of my knowledge and that I understand and have identified who the permit holder is (as defined above).</p> <p>Signature: Date:</p>	<p>I agree to construct the proposed structure according to the submitted plans and specifications, the laws of the State of Oregon, applicable Oregon Specialty Code, Ordinances of Polk County and I further expressly warrant that I comply with the provisions of ORS 701.005 to 701.056.
