COLON CANCER SCREENING
DISCUSSION GUIDE

Everyone 50 years of age and older should talk to their doctor about colon cancer screening. Cologuard® is a new, noninvasive, easy-to-use option based on the science of stool DNA that you can use at home. It requires no special preparation and no time off.

Print this Discussion Guide and take it to your next doctor's appointment. Be sure to include your full medical history when discussing the following questions. Ask if Cologuard is the best screening option for you.

ANSWER THIS:

Circle Yes or No:

Have you ever been screened for colon cancer? Yes | No

Have you been avoiding a colonoscopy? Yes | No

ASK THIS:

- ☐ What are my risk factors for colon cancer? What are the symptoms?
- ☐ What are my screening options? How do they differ?
- ☐ Is Cologuard right for me?
