

Health & Safety

Understanding Your Liabilities and Conducting a Job Hazard Analysis

IHSA hosts a free interactive workshop in Oshawa

Do you understand your liabilities as an Employer or Supervisor and how they relate to Due Diligence?

IHSA knows companies work hard and they have many priorities to manage—it is often difficult to be aware of all the risks in your business. That's why IHSA Construction Consultants Jeff Hart and Andre Robichaud and Transportation Consultant Rick Tilley are hosting a two-hour interactive workshop that will help participants:

- Understand their liabilities as they relate to health and safety
- Learn to apply due diligence best practices
- Learn to conduct a job hazard analysis

This will be an interactive seminar where participants have ample opportunity to ask questions and interact with the Consultants. Participants will receive practical tips and industry best practices that relate to both the *Occupational Health & Safety Act* and the *Canada Labour Code*.

Date: June 26, 2012
Time: 10:00 am to 12:00 pm
Location: Camp Samac, Council Hall
275 Conlin Street East
Oshawa, ON L0B 1J0

Together we're better

IHSA is the amalgamation of the Construction Safety Association of Ontario (CSAO), the Electrical & Utilities Safety Association (E&USA), and the Transportation Health and Safety Association of Ontario (THSAO).

About IHSA

IHSA's vision is the elimination of all workplace injuries, illnesses, and fatalities within our member firms. We engage with our member firms, workers, and other stakeholders to help them continuously improve their health and safety performance. We do this by providing effective and innovative sector-specific programs, products, and services.

We offer

- Training programs
- Consulting services
- Health and safety audits
- Publications and e-news
- Posters and stickers
- Reference material
- A resource-rich website
- Solutions to high-risk activities
- Due diligence solutions.
