Plan now to attend this important and informative clinic. The clinic's goal is to share Little League's services and educational materials while instructing the participants on the best way to access and use the services and information. Blocks of time during the 2 days will be used to inform those in attendance on such topics as regulations, ASAP (A Safety Awareness Plan), draft processes, residency requirements, and insurance. Training seminar will be held for League Officials, Safety, Umpires, Player Agents, and others. League volunteers and administrators will learn how best to implement the Little League program in their town or neighborhood. **Vendors will also be onsite displaying fund raising and equipment ideas.**
