

# Daily Geography Week 9

Have your parents check your answers **before** you hand it in. Remember that you can get help from parents finding answers. Start early in the week in case some answers are hard to find.

1. Locate and name two **peninsulas** in Alaska other than the Kenai Peninsula. Then tell which one is farther **south**?
2. What does a **map scale** show?
3. As you get \_\_\_\_\_ to the **equator**, temperatures get \_\_\_\_\_?
4. Which **ocean borders** Russia to the north?
5. What are the names of the five **Great Lakes**?
6. What is the **capital** of Washington, the state where Puget Sound is located?
7. Name the island **nation** south of India?
8. Which **hemisphere** has more land, the Eastern or Western?
9. Locate Quito, Ecuador, and Nome, Alaska, on a map. Then find out what the average summer temperature is in each city. Did the answer surprise you? What might explain it?
