

**System Security Inventory and Assessment Form**  
**(use one form for each machine)**

**SECTION ONE: Machine Inventory**

System Owner: \_\_\_\_\_

Machine Identification (Make, Model, Purdue Inventory #, Serial Number, Location, etc.):

---

**SECTION TWO: Security Inventory**

To the best of my knowledge,

- I have reviewed all business and home computer equipment (workstations, desktops, laptops, tablets, etc.) for files containing sensitive and/or restricted data.
- I acknowledge that all necessary (required to conduct official university business) data is on a Purdue University secure network server.
- I acknowledge that all sensitive and/or restricted data has been deleted from business and home computer equipment.

Secure computing best practices, including definition of sensitive, restricted and public data classifications can be found at:

<http://www.itap.purdue.edu/security/policies/policies/dataConfident.cfm>

YES:

**Vulnerability Scan**

I agree that if I am contacted regarding vulnerabilities on my machine, I will assist in the remediation of those vulnerabilities.

YES:

**Comments and Questions: (if unable to check both “Yes” boxes, explain below or on back)**

To insure that all future work with data remains protected, I agree that I will only save necessary sensitive and/or restrictive data to a secure network server.
