

SCHOLASTIC PAPERBACKS MEET YOUR STANDARDS!

**A CORRELATION OF PAPERBACK TITLES SUPPORTING THE
NEBRASKA SCIENCE STANDARDS
FOR KINDERGARTEN TO GRADE 8**

The attached correlation of paperback titles is provided for your information and convenience.

- Individual titles in this document have been aligned to one grade and one standard.
- Titles support, align, enhance or extend content area learning intentionally engaging students in quality literature.
- Literature and nonfiction titles have multiple applications and content that can address several topics. Therefore, we recommend browsing all the standards and across grades to identify and select books that meet the unique needs of your classroom.
- Leveling information provided includes lexile, guided reading and DRA levels where available.
- Please refer to the Scholastic Educational Materials catalog and the Scholastic Science & Social Studies catalog for more details on these and other books for your classroom.
- Volume discounts apply: 15% off individual paperback orders \$50 to \$99.99, 25% off individual paperback orders \$100 to \$999.99, 30% off individual paperback orders \$1,000 to \$3,499.99, and 40% off orders more than \$3,500. Prices expire Aug. 2012

* Where noted titles may be available in limited quantities.

SC K-12.4 Comprehensive Science Standard – Earth and Space Sciences

Students will integrate and communicate the information, concepts, principles, processes, theories, and models of Earth and Space Sciences to make connections with the natural and engineered world.

4. Earth and Space Sciences

1. Earth in Space

SC2.4.1 Students will observe and identify objects of the sky.

Objects in the Sky and Universe

SC2.4.1.a Identify objects in the sky (the Sun, the Moon, the stars) and when they are observable

Motion of Objects in the Solar System

SC2.4.1.b Identify objects that appear to move in the sky (the Sun, the Moon, stars)

<u>Comets - Scholastic Time-to-Discover Reader</u>	* Berger	Beginning Reader	NF	4-6				ABF957479	\$3.95		
--	----------	------------------	----	-----	--	--	--	-----------	--------	--	--

Volume discounts apply on all individual paperback orders over \$50.

Grades 3-5

SC K-12.1 Comprehensive Science Standard – Inquiry, the Nature of Science, and Technology

Students will combine scientific processes and knowledge with scientific reasoning and critical thinking to ask questions about phenomena and propose explanations based on gathered evidence.

1. Inquiry, the Nature of Science, and Technology

1. Abilities to do Scientific Inquiry

SC5.1.1 Students will plan and conduct investigations that lead to the development of explanations.

Scientific Questioning

SC5.1.1.a Ask testable scientific questions

Scientific Investigations

SC5.1.1.b Plan and conduct investigations and identify factors that have the potential to impact an investigation

Simple Machines, All New, All True - A True Book™
— Physical Science

NF 8-10 ABF603314 \$6.95

Scientific Tools

SC5.1.1.c Select and use equipment correctly and accurately

Scientific Observations

SC5.1.1.d Make relevant observations and measurements

Scientific Data Collection

Physical Science

SC K-12.2 Comprehensive Science Standard – Physical Science

Students will integrate and communicate the information, concepts, principles, processes, theories, and models of the Physical Sciences to make connections with the natural and engineered world.

2. Physical Science

1. Matter

SC5.2.1 Students will explore and describe the physical properties of matter and its changes.

Properties and Structure of Matter

SC5.2.1.a Identify mixtures and pure substances

SC5.2.1.b Identify physical properties of matter (color, odor, elasticity, weight, volume)

SC5.2.1.c Use appropriate metric measurements to describe physical properties

<u>Everyday Mysteries</u>	* Wexler	Activities	NF	6-9		M	20-24	ABF986635	\$5.95

Life Science

SC K-12.3 Comprehensive Science Standard - Life Science

Students will integrate and communicate the information, concepts, principles, processes, theories, and models of the Life Sciences to make connections with the natural and engineered world.

3. Life Science

1. Structure and Function of Living Systems

SC5.3.1 Students will investigate and compare the characteristics of living things.

Characteristics of Life

SC5.3.1.a Compare and contrast characteristics of living and nonliving things

Characteristics of Living Organisms

SC5.3.1.b Identify how parts of plants and animals function to meet basic needs (e.g., leg of an insect helps an insect move, root of a plant helps the plant obtain water)

Grades 6-8

SC K-12.1 Comprehensive Science Standard – Inquiry, the Nature of Science, and Technology

Students will combine scientific processes and knowledge with scientific reasoning and critical thinking to ask questions about phenomena and propose explanations based on gathered evidence.

1. Inquiry, the Nature of Science, and Technology

1. Abilities to do Scientific Inquiry

SC8.1.1 Students will design and conduct investigations that will lead to descriptions of relationships between evidence and explanations.

Scientific Questioning

Physical Science

SC K-12.2 Comprehensive Science Standard – Physical Science

Students will integrate and communicate the information, concepts, principles, processes, theories, and models of the Physical Sciences to make connections with the natural and engineered world.

2. Physical Science

1. Matter

SC8.2.1 Students will identify and describe the particulate nature of matter including physical and chemical interactions.

Properties and Structure of Matter

SC8.2.1.a Compare and contrast elements, compounds, and mixtures

SC8.2.1.b Describe physical and chemical properties of matter

States of Matter

SC8.2.1.c Recognize most substances can exist as a solid, liquid, or gas depending on temperature

SC8.2.1.d Compare and contrast solids, liquids, and gasses based on properties of these states of matter

Physical and Chemical Changes

SC8.2.1.e Distinguish between physical and chemical changes (phase changes, dissolving, burning, rusting)

SC8.2.1.f Recognize conservation of matter in physical and chemical changes

Classification of Matter

SC8.2.1.g Classify substances into similar groups based on physical properties

<u>The 10 Most Valuable Elements - The 10</u>	*	Science	NF	11-14	1000			ABF152358	\$14.99	_____	_____

2. Force and Motion

SC8.2.2 Students will investigate and describe forces and motion.

Motion

SC8.2.2.a Describe motion of an object by its position and velocity

Inertia/Newton's 1st law

SC8.2.2.b Recognize an object that is not being subjected to a force will continue to move at a constant speed in a straight line or stay at rest (Newton's 1st law)

Forces/Newton's 2nd law

SC8.2.2.c Compare the motion of objects related to the effects of balanced and unbalanced forces

Universal Forces

SC8.2.2.d Recognize that everything on or around Earth is pulled towards Earth's center by gravitational force

<u>Genius or Madman: Sir Isaac Newton, Sir Isaac Newton - Shockwave</u>	* Atkinson	Science	NF	9-12	790	V	50	ABF136828	\$6.95

3. Energy

SC8.2.3 Students will identify and describe how energy systems and matter interact.

Sound/Mechanical Waves

SC8.2.3.a Recognize that vibrations set up wave-like disturbances that spread away from the source (sound, seismic, water waves)

SC8.2.3.b Identify that waves move at different speeds in different materials

Light

SC8.2.3.c Recognize that light interacts with matter by transmission (including refraction), absorption, or scattering (including reflection)

SC8.2.3.d Recognize that to see an object, light from the surface of the object must enter the eye; the color seen depends on the properties of the surface and the color of the available light sources

Heat

SC8.2.3.e Recognize that heat moves from warmer objects to cooler objects until both reach the same temperature

Conservation

SC8.2.3.f Describe transfer of energy from electrical and magnetic sources to different energy forms (heat, light, sound, chemical)

SC8.2.3.g Recognize all energy is neither created nor destroyed

<u>Build a Room Alarm , and 16 More Electrifying Projects - Science Dares You</u>	* Markle	Activities	NF	8-12	880	W	60	ABF944432	\$3.95

SC K-12.4 Comprehensive Science Standard – Earth and Space Sciences

Students will integrate and communicate the information, concepts, principles, processes, theories, and models of Earth and Space Sciences to make connections with the natural and engineered world.

4. Earth and Space Sciences

1. Earth in Space

SC8.4.1 Students will investigate and describe Earth and the solar system.

Objects in the Sky and Universe

SC8.4.1.a Describe the components of the solar system (the Sun, planets, moons, asteroids, comets)

Motion of Objects in the Solar System

SC8.4.1.b Describe the relationship between motion of objects in the solar system and the phenomena of day, year, eclipses, phases of the Moon and seasons

<u>The 10 Coolest Wonders of the Universe - The 10</u>	*	Science	NF	11-14	1020			ABF152300	\$14.99		
<u>1000 Facts about Space</u>	* Beasant	Science	NF	9-up	870	X	60	ABF48681	\$6.95

2. Earth Structures and Processes

SC8.4.2 Students will investigate and describe Earth's structure, systems, and processes.

Properties of Earth Materials

Earth (core, mantle, crust, atmosphere)

SC8.4.2.b Describe the physical composition of soil

SC8.4.2.c Describe the mixture of gasses in Earth's atmosphere and how the atmosphere's properties change at different elevations

SC8.4.2.d Describe evidence of Earth's magnetic field

Earth's Processes

SC8.4.2.e Compare and contrast constructive and destructive forces (deposition, erosion, weathering, plate motion causing uplift, volcanoes, earthquakes) that impact Earth's surface

<u>The 10 Mightiest Mountains - The 10</u> *		Science	NF	11-14	970			ABF152227	\$14.99		
<u>The 10 Most Dangerous Geographic Locations - The 10</u> *		Science	NF	11-14	960			ABF152357	\$14.99

3. Energy in Earth's Systems

SC8.4.3 Students will investigate and describe energy in Earth's systems.

Energy Sources

SC8.4.3.a Describe how energy from the Sun influences the atmosphere and provides energy for plant growth

Weather and Climate

SC8.4.3.b Identify factors that influence daily and seasonal changes on Earth (tilt of the Earth, humidity, air pressure, air masses)

SC8.4.3.c Describe atmospheric movements that influence weather and climate (air masses, jet stream)
