Registration Fee: \$25.00

Indian Springs Golf Course

21347 IL Rt. 185

Fillmore, IL 62032

DESCRIPTION:

This Administrator Academy is a one-day workshop offered in conjunction with a two-day Masonic Model Student Assistance Program. This workshop deals with the issue of at-risk youth behaviors and the concerns of Administrators, staff, and community. The Administrator Academy provides participants with a proactive, legally sound, step-by-step comprehensive plan to address today's "people Problems." We focus on system-wide interventions for alcohol and drug abuse; teen pregnancies; AIDS and STDs; conflict; bullying and gangs, physical and emotional abuse; stress, depression and suicide; death and dying; and weapons in school. Participants receive time-proven and practical daily strategies which allow teachers to teach and learners to learn.

TOPICS COVERED INCLUDE:

- ◆ How to create policies and procedures to deal with high-risk behaviors
- ◆ How to create and operate an effective crisis response team, organizing for effective administration.
- ◆ Administrative guidelines on student at-risk topics
- ◆ Confidentiality, Search and Seizure, law Enforcement and Local Service Agencies
- ◆ Parent and School Alliances, Media, Dealing with Difficult People

We would like to emphasize that for an effective student assistance program to exist it is vital that school administrators be committed to SAP or whatever intervention model is in place. This is because the most important single factor is Core Team success in Administrator support. Administrators are given information in two subject areas regarding their Core Team (s): 1. How the Core team will help the school and possibly more important; 2. how the Core Team can help the Administrator do his/ her job.

Masonic Model Student Assistance Training Program

Administrator Academy #810
