

Radiation Generating Device (RGD) Authorized Operator Sheet

Radiation Generating Device (RGD)

Print device name:

1. Purpose of Document

This is the RGD Authorized Operator List form to be used in posting of RGD devices in End Station B.

2. Background

This document is owned and authorized by the PPA/ARD/Test Facilities Department.

Document source is located at:

V:\NLCTA\Controlled Operations Documents\02-07 L-Band test stand\02-07-04-001 RGD Authorized Operator List.doc

2.1. Document has been reviewed and approved by:

PPA/ARD/TF Department Head	Signature	Date
----------------------------	-----------	------

L-Band Operations Manager	Signature	Date
---------------------------	-----------	------

PPA/ARD Safety Officer	Signature	Date
------------------------	-----------	------

-- end --

The safe operation of this Radiation Generating Device is the responsibility of the Authorized Operator. The Authorized Operator:

- Verifies that the operational parameters specified in the Experimental Authorization are not exceeded.
- Releases engineering support personnel to operate and adjust power supplies and other support equipment. Note: This release is in addition to the WPC release obtained from the EOIC or Area Manager.
- Signing the log in the Experimental Authorization each workday.

Engineering Support Personnel

Engineering support personnel may operate and adjust parameters of the RGD providing:

- They have been released to work on the device by an Authorized Operator for this RGD and have been released by the EOIC or Area Manager.
- Changes in the core RGD device parameters (Beam Voltage, Pulse Length, Magnet Settings, Repetition Rate, RF Parameters) have been authorized and documented in the logbook by an Authorized Operator for this RGD.
