# COMMUNITY FUND

## WELCOME

Thank you for enquiring about the East Midlands Airport Community Fund.

The Fund is dedicated to bringing lasting benefit to those areas most affected by the airport's operations. It forms part of the Airport's Community Relations programme that is committed to minimising the impact Airport operations have on the surrounding communities.

Established in April 2002, the independent Community Fund has helped over 900 initiatives benefit from over £700,000. Money from the Fund has gone to a diverse range of projects from equipment for village halls to the development of a wildlife area.

All applications for a Community Fund grant are assessed by the Community Fund Management Committee. The members include three local councillors, an airport operator and an East Midlands Airport representative. These members bring local knowledge to the Community Fund, ensuring the money is used to the maximum benefit of the community.

Within this pack you will find all the information you need to make a suitable application. This includes a map of the 'area of benefit', guidelines to help you complete your application, some FAQs, real-life examples of projects that have successfully applied to the Fund, as well as the application form.

I hope this brochure will inspire you to make an application to the Community Fund and I look forward to seeing many more successful applications.

## WHAT IS THE COMMUNITY FUND?

The Community Fund is a completely separate fund that is managed independently by the Community Fund Management Committee. It is open to community groups within the 'area of benefit' (see map on page 4 and 5).

The money in the Fund comes from a substantial annual donation from East Midlands Airport together with surcharges and fines levied against aircraft that exceed strict noise limits. The surcharges and fines increase the money available to the Fund, together with encouraging the airlines to operate more responsibly and use quieter aircraft. The Community Fund awards grants to support eligible projects that have a community and/or environmental benefit that is long-lasting.

### FUND OBJECTIVES

The Community Fund objectives are outlined below. In order for a project to receive a grant from the Fund it must meet at least one of the following:

- To bring the community closer together through facilities for sport, recreation and other leisure time activities
- Offer environmental improvement and/or heritage conservation
- Improve awareness of environmental issues through environmental education
- Encourage and/or protect wildlife.

## IS MY PROJECT ELIGIBLE FOR A GRANT?

In order to determine whether your project is eligible for a Community Fund grant take a look at the following questions...

1. Is your project within the 'area of benefit'. Please check the postcode of where your project postcode is based (see map on page 4 and 5).
2. Does your project meet at least one of the Fund's objectives outlined above?
3. Does your project have a lasting benefit to the community?
4. Does your project benefit all members of the community, or a substantial part of it, regardless of age, race, gender, ability or religion?
5. Is your application for something other than the purchase of land, buildings or building maintenance?
6. Do you represent an established group or charity able to demonstrate financial records? A new group able to offer an outline of proposed accounts and not an individual or organisation working for profit?
7. Is your application for items other than general administration, running costs or wages?

If you answer yes to all these questions, then please read on...
