

NESPIN TRAINING

CERTIFIED ELECTRONIC EVIDENCE COLLECTION SPECIALIST (CEECS) Training January 15, 2009 0800-1600Hrs

This one-day course is offered only to Law Enforcement officers and Law Enforcement support personnel. The course will instruct first responders on how to collect electronic evidence in a forensically sound manner. The course includes lecture, a practical exam, and a written exam. Upon successful completion of the written examination, course attendees will be awarded a CEECS certification from IACIS, the International Association of Computer Forensic Specialists.

The core lesson blocks include:

- Introduction to the International Association of Computer Investigative Specialists (IACIS) organization
- Introduction to Computer Crime and Forensics
- Recognizing Hardware and Media
- Search Warrants involving Computer Media
- Computer-related Case Law
- First Responder for Digital Evidence
- Digital Evidence Seizure Practical

This training will include:

- Describing crimes in which stored electronic data might be useful
- Discussing computer forensic capabilities
- Assisting with recognizing hardware and data storage media
- Obtaining proper legal authority for search and seizure of electronic data
- Detailing the seizure, transportation, and storage of computers and media
- Instructor: Ken Carter, NESPIN
- Location: Portsmouth Police Dept., 3 Junkins Avenue, Portsmouth NH

There is no charge for this training. Seating is limited to the first 40 registered.
