

Internet of Things Working Group Member Application

Organization, listed below ("Applicant"), requests to join the Internet of Things Working Group (IoT WG) with the goal to help develop and advance best practices and create a trust framework, addressing privacy, security and IoT device lifecycle / sustainability issues. Approved members are provided access for two employees to the private discussion list and may attend any event and post to the list.

OTA reserves the right to deny or revoke status based on Applicant's business practices which may conflict with OTA's mission.

Applicant agrees that any contributions to the IoT WG related to best practices, guidelines, presentations and standards by its representative(s) to the IoT WG ("Contributions") are considered part of collective work product owned solely by the OTA, unless stipulated by prior written agreement. Applicant agrees to hold all IoT WG documents and information shared by other working group members as confidential and abide to the "Chatham House Rule" policy.

I agree OTA may send me communications as they pertain to OTA-related business via email. OTA will not share my name, email addresses or address to any third party without my written consent or as required by law.
