

**ACTIVITY: Weather KWL Chart (Level 1)****Directions:**

1. Before you begin reading, ask yourself what you know about space shuttle launch weather or the responsibilities of a launch weather officer. Write what you know in the K column.
2. After reading the text and learning the material, go back to the K column and see if any of your prior knowledge was inaccurate. Check any of them that are inaccurate, according to the text. Rewrite any of your statements that were inaccurate so they are correct.
3. Then go to the W column and check any of your questions that the text did not answer. Be prepared to ask questions, or tell how you will find answers to them and where you will look to get the answers.
4. After you are done with all 3 reading sections, list what you learned in the L column.

K What do you KNOW?	W What do you WANT to Learn?	L What did you LEARN?
