

Training Course Details

RISK ASSESSMENT

Before the course

No prior knowledge about the subject is mandatory. However, basic industrial work experience in the field where such activities are carried out is desirable.

Who'll benefit?

HSE personnel and Risk Assessors.

What you'll learn?

1. Provide delegates with sufficient knowledge to allow them to become familiar with the legal requirements for, and practical and economic benefits of, assessment of risks at work
2. Provide delegates with sufficient knowledge of principles and procedures to enable them to carry out effective risk assessments in the work place, incorporating legal priorities and practical, cost-effective solutions.

Program

- HAZID: Hazard Identification
- Definitions: What is hazard and what is risk
- Types of hazards
