

### CLINICAL EVENT EXPORT DUE TODAY

Just a reminder that your Clinical Event Export for the month of February 2015 is due in by 5.00pm today please.

If you are using MedTech, instructions for completing the extract are available on the Karo website:

[http://www.karo.co.nz/index.php?option=com\\_content&view=article&id=185&Itemid=205](http://www.karo.co.nz/index.php?option=com_content&view=article&id=185&Itemid=205)

The dates for the export are 1 February 2015 to 28 February 2015.

### CERVICAL SCREENING

The new updates for your 'How to Guide' cervical screening folder have been emailed to your Practice today.

Included in the email are the current NCSP standardised codes. If you have any queries, please contact Carol on 021913039.

### AUCKLAND PHO PROGRAMMES CERVICAL SCREENING

Additional funding of \$35.00 (excl GST) for cervical smears is available to Maori and Pasifika women and others living in Quintile four and five aged between 20 and 69 years. Other priority women, unscreened and or greater than 5 years since last screen aged between 30 and 69 years are also eligible. Patients in both these groups must be enrolled at your practice. Referral/access to the programme is via the Practice Management System or by completing the Advanced Form. There is no patient co-pay. To claim, the MT32 Advanced Form or Profile/My Practice Manual form needs to be completed.

### CME/CNE LEARNING CIRCLES

The first of Auckland PHO's CME/CNE sessions in the new format of "Learning Circles" was held on Thursday, 26 February 2015 with a great turnout from both GPs and Practice Nurses to hear speakers from Mercy Hospice on Palliative Care in Primary Care and Caring for Patients in the Last Year of Life. Participant feedback has indicated that the new format was well received and comments provided were all positive.

We look forward to seeing more of you at the next Learning Circle on Youth Health scheduled for Thursday, 14 May 2015.

### VALIDATING PATIENT ADDRESSES IN ESAMS

The National Enrolment Service Phase One roll out is beginning on 1 July 2015. This will be the first phase of electronic enrolments for patients. Although this will not negate the need for a signed enrolment form, it will mean more up-to-date enrolment data for practices and, therefore, more timely funding and fewer Fee For Service claw backs. In preparation for this, practices need to ensure all patient addresses are validated using ESams, so making sure patient addresses are updated and validated over the next few months is very important.
