Pest Control Invoice / Work Order Features and Facts

Still ordering pre-printed pest control invoice or wok order forms online? Now you can print them yourself. Our Pest Control Invoice / Work Order Template, both in Microsoft Excel spreadsheet and Adobe PDF format, is fully customizable, and could be easily become a complete invoicing system when you are ready to upgrade.

By fully customizable, we meant you can not only personalize the logo image and your company information, but also colors, fonts, borders and additional images, and even the Excel formulas that used to calculate taxes and subtotal, totals. Simply put, our templates are not protected with a password, you can use it with or without Uniform Invoice Software installed - all are totally under your control. However, if you have Uniform Invoice Software installed, Pest Control Invoice / Work Order could be your electronical invoicing system that allows you to easily manage your customers, products, invoices and payments. For example, you can look up a customer information by search for name, company, address, phone, city state or zip / postal codes. By simple clicks, you can find out all the invoices created for the customer. You can also send electronic invoice online to your customer, in Excel spreadsheet (xlsx or xls) format, PDF format, or image (PNG) format.

Not satisfied with the existing fields we put on the Pest Control Invoice / Work Order form? No problem. You can add new fields by simple dragging and dropping. The complete design documents are packed into Uniform Invoice Software installer program. So feel free to download and try it. The trial version of Uniform Invoice Software is fully functional within the trial period.

Now let's take a look at the Pest Control Invoice / Work Order form itself. The invoicing template or work order template could be used for residential or commercial pest control services. The form has a logo image on the top of the form - this is a place holder image with our web site name InvoicingTemplate on it. If you have Uniform Invoice Software version 4 installed, the default image could be replaced with your own logo image by simply clicking on the "Replace Logo Image" button on the "Invoice" ribbon tab. If you don't have Uniform Invoice Software installed, you can still replace the default logo image manually - there are several steps involved, as detailed in the help document installed with Uniform Invoice Software, you should firstly unprotect the Invoice worksheet, and then switch to design mode, and then right-click the image object and then choose "Properties".

The template, which is provided to you free of charge by InvoicingTemplate.com, could be used by any type of pest control service, including termite removal, setting up traps for mice, or bug-proofing etc. This simple invoice template for a pest control business can be used to document the services provided. Sections are provided for the pest control business along with customer. Additional sections provide a description of services along with pest treatment service areas.

While our custom pest control invoices forms produce beautiful invoices as what you can purchase from office supply stores, the another advantage of our templates is that you can upgrade by installing Uniform Invoice Software at any time you like. With Uniform Invoice Software installed, your invoicing system goes electronically and no more paper work. For example, if you need to find an invoice, it usually takes hours if you have only printed paper invoices. This could be seconds if you have Uniform Invoice Software - you can find by invoice#, date, any available customer information, product / item description etc.

As both the screenshot and the PDF invoice show, the top section of the invoice form provides general fields that could be found on many service billing template, such as Invoice Date, Invoice #, Terms, Service Date, Start Time, Finish Time, Warranty. The "Shipping Address" section that found on most sales invoice template is now labeled with "SERVICE LOCATION" and includes two fields: Address and Phone Number.

The detail section is divided into two section - one general section that has 4 columns (Quantity, Service Description, Price / Unit, Amount). Another section, which is designed solely for Pest Control Invoice / Work Order, also includes 4 columns - Target, Treatment Area, Products Used, Unit /Amount.

On the bottom of the Pest Control invoice and work order form, you'll find fields for "Technician's Name", "License #" and " Customer's Signature".
