

STANDARD IGT TICKET

If your casino uses Cummins bill sorters please use our IGT cummins template on the right side of this page.

Please use this template to design your tickets. If you would like to use an application other than Illustrator just set the document size to 5.6"x1.7" and keep the artwork within this area.

Acceptable Applications: Illustrator, Freehand, InDesign, Photoshop, Quark Express

Not Acceptable: Microsoft Word, Powerpoint, Coreldraw, Images from websites, etc

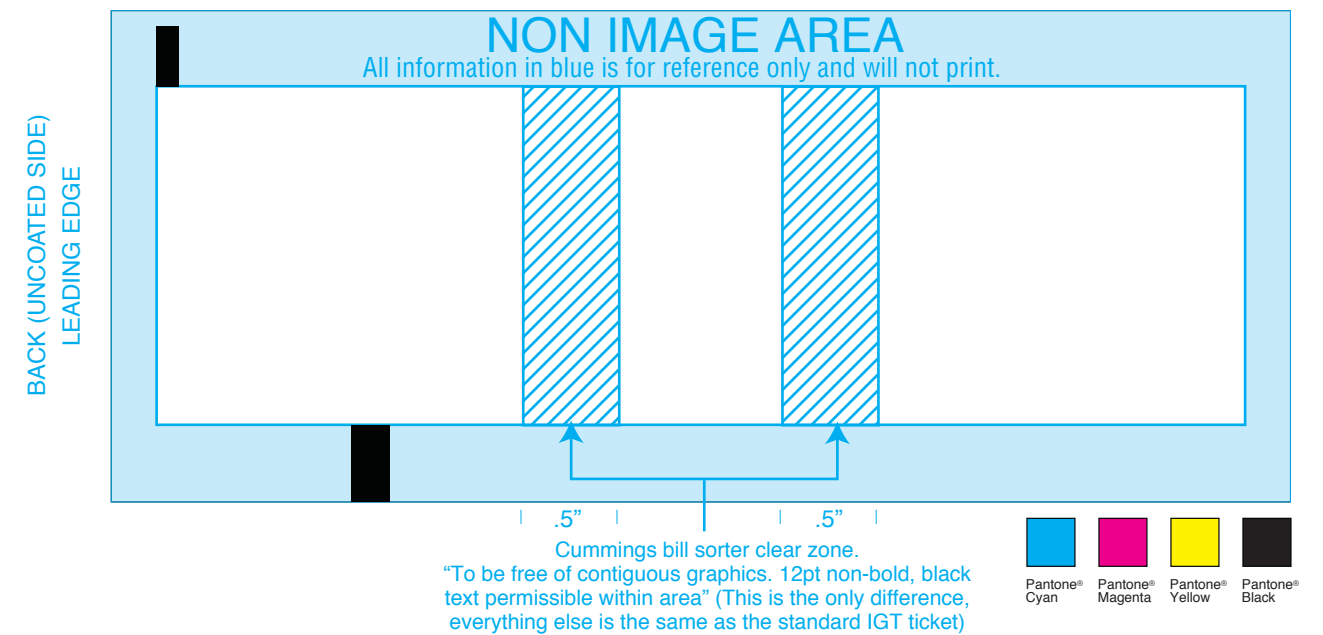

Photos should have a resolution of 300dpi, at the size it will printed at. (if a photo is 300 dpi @ 1"x1" and you

enlarge it in a page layout program to 2"x2" it is now 150dpi).

Photos should be CMYK. Digital photos are normally RGB, please convert them to CMYK.

Line Art (logos etc): These are best created in a vector program that is resolution independent (Illustrator/freehand). Raster images (such as a photoshop file) need a resolution of at least 1200dpi to look sharp (2400dpi is even better).
