204 Processing Information

- Dayton Freight is an LTL carrier. 204's will be processed for one load and one unload (one S5 "CL" and one S5 "CU" loop), not for multiple loads and unloads.
- We can return a 997 or 990 for a 204. We can populate the 990 with the terminal ID and pickup number that was assigned to the pickup. We are not able to return a pro # before the freight bill is in our system so cannot provide pro # on the 990.
- Dayton Freight's Pickup system and Billing system are separate. A shipment ID or load tracking number sent to us on a 204 will not pass automatically to a 214. For the shipment ID or load tracking number to be on the 214, it should be on the original bill of lading and marked properly.
- Dayton Freight only accepts original 204's. The B2A-01 segment must be "00". Pickup changes, cancellations, and shipment tracking should follow the same channels of communication that are currently in place. Changes and cancellations are not processed via EDI.
- 204's processed after 4:00 p.m. with a current ready date will automatically be changed to next business day with a pickup time of 9:00 a.m.
- A contact name and phone number is required in the G61 segment for the shipper.
- G62 segments are required with pickup date, pickup ready time, and latest pickup time.

Special Services (If using special services, please allow for testing)

Guaranteed Service:

Guaranteed Service 204s need to include an expedite code.

We request an AT5-02 segment populated with "GSAM" or "GSPM" for guaranteed service

Hazardous Material:

Hazardous material needs to be marked in the 204.

We request an NTE-02 segment populated with "HAZ".

Food Flag:

A food flag needs to be sent if a food shipment cannot be loaded on the same truck with hazardous material.

We request an NTE-02 segment populated with "FOOD".

Contact Information

For non-edi information about an actual pickup or changes/cancellations please contact your local terminal or our customer service department (800-860-5102 or email customerservice@daytonfreight.com)
