COMPLIANCE WITH THIS PUBLICATION IS MANDATORY

This instruction implements Air Force Policy Document (AFPD) 10-2, *Readiness*; AFPD 10-25, *Full-Spectrum Threat Response* (to be renamed *Emergency Management);* AFPD 10-26, *Counter-Nuclear, Biological, and Chemical Operational Preparedness (*to be renamed *Counter-Chemical, Biological, Radiological, and Nuclear Operations);* AFPD 10-8, *Homeland Security;* Air Force Doctrine Document (AFDD) 2-1.8*, Counter Nuclear, Biological, and Chemical Operations;* and portions of AFDD 2-4.1, *Force Protection.* It also aligns the Air Force with *Homeland Security Presidential Directive 5 (HSPD-5)*, the *National Incident Management System (NIMS)*, and the *National Response Plan (NRP)*. This instruction also implements the Air Force Incident Management System (AFIMS) based on the NIMS methodology and aligns Air Force EM planning and response with the NRP as directed by HSPD-5. This instruction defines the Air Force EM program as a cross-functional program that integrates procedures and standards for planning; logistical requirements; emergency response actions; emergency response guidelines; exercises and evaluations; personnel training; detection, identification, and warning; notification; and enemy attack actions. It establishes responsibilities, procedures, and standards for Air

Force mitigation and emergency response to physical threats resulting from major accidents; natural disasters; conventional attacks (including those using high-yield explosives); and terrorist use of CBRN materials. This instruction includes domestic and foreign guidance. (Note: HQ Pacific Air Forces [PACAF] will determine whether domestic or foreign guidance applies to Alaska and Hawaii.) Its pre-scribed planning process helps commanders achieve unity of effort, allocate and use resources effectively, and identify shortfalls in their response capabilities. See **Attachment 1** for definitions of acronyms, abbreviations, and terms used in this instruction. Consult cited policy directives, instructions, manuals, and their supplements for specific policies, procedures, and requirements. Send recommended changes and major command (MAJCOM) supplements to this publication to HQ AFCESA/CEXR, 139 Barnes Drive Suite 1, Tyndall AFB, FL 32403-5319. Use AF IMT 847, *Recommendation for Change of Publication* for recommended changes. Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with (IAW) AFMAN 37-123, *Management of Records* and dis-posed of in accordance with the *Air Force Records Disposition Schedule (RDS)* located at **https://afrims.amc.af.mil/**.

(AMC) AFI 10-2501, *Air Force Emergency Management (EM) Program Planning and Operations*, 24 January 2007, is supplemented as follows: This supplement implements major command (MAJCOM) policy by supplementing specific processes and procedures that are unique to Air Mobility Command (AMC). It applies to all AMC and AMC-gained Air Reserve Command units. Tenant Reserve units will not have separate EM programs that duplicate active duty integrated programs (e.g., two separate Emer-gency Management (EM) programs). Wing commanders will publish local EM program requirements in base supplements and plans as necessary. Forward comments and suggested improvements to this supple-ment on AF Form 847, *Recommendation for Change of Publication*, through channels to HQ AMC/A7XR, 507 Symington Drive, Scott AFB, Illinois 62225-5022.

(AMC) Ensure that all records created as a result of processes prescribed in this publication are main-tained in accordance with AFMAN 37-123 (will convert to AFMAN 33-363), *Management of Records*, and disposed of in accordance with the Air Force Records Disposition Schedule (RDS) located at **https://afrims.amc.af.mil/**.

SUMMARY OF CHANGES

This interim change (IC) updates and changes training requirements for the Chemical, Biological, Radio-logical, Nuclear, and High-yield Explosive (CBRNE) Defense Training Course and Explosive Ordnance Reconnaissance (EOR) Training Course to AFI 10-2501. It also updates the name of the CE Readiness Flight to Readiness and Emergency Management Flight IAW Program Action Directive (PAD) 07-02. Unless specifically stated within this IC, all changes for implementation of the new online CBRNE Defense Course are effective 30 September 2007 for active duty units and 31 October 2007 for ANG and AFRC units. This allows Readiness and Emergency Management Flights to inform the base populace of the new changes. A margin bar (|) indicates newly revised material.

Program Action Directive (PAD) 07-02 changes the name of the CE Readiness Flight to Readiness and Emergency Management Flight. This PAD is located on the AF Portal under the Emergency Management section. The flight is mentioned in over 30 locations in AFI 10-2501, changes to this will not be made until the next revision.
