

Danish Energy to Bangladesh

**Meet Bangladeshi Business Delegation
Focusing on Energy Generation and Energy
Efficiency in Your Own Company**

14 – 16 March 2016

Meet high level decision makers from Bangladesh at your own company in Denmark for a direct presentation of your company and products

Confederation of Danish Industry

The Danish Trade Council in Bangladesh

Bangladesh wants power generating capacity and energy efficient technology to meet the demands from rapid economic growth. Danish companies are invited to receive a delegation of Bangladeshi decision makers from the energy sector.

Bangladesh is having an average economic growth of six per cent per year and the country is facing a steady and increasing demand for energy. The demand for new capacity will grow further because of the diminishing supply of natural gas, which has been the primary source for energy for many years.

Power Production Grows 66 %

The Government of Bangladesh has adopted a Power System Master Plan that will increase and diversify the power generation capacity in the country. New capacity will be added by using renewable energy, waste-to-energy, coal and energy efficiency.

The government has set the target for energy production for 2021 at 20,000 MW – a 66 per cent increase from the present 12,000 MW produced annually.

To boost the power production the government has invited independent power producers (IPP) to generate power to be fed into the distribution network.

Demand for Danish Solutions

The rising demand for power in Bangladesh matches the products and solutions offered by Danish companies. DI and the Danish Embassy in Dhaka therefore invite a delegation of Bangladeshi decision makers from private as well as public sector companies and policy makers to visit Denmark for a first hand meeting with relevant Danish companies.

The customer comes to you

It will be a delegation of executives from private and public enterprises in Bangladesh. Each of them representing companies directly engaged in energy generation, distribution and efficiency or policy making in Bangladesh. They will visit Denmark to study the high quality Danish products and solutions matching the needs of Bangladesh.

Host the delegation

We invite Danish companies to host the meetings with the Bangladeshi delegation for a demonstration and introduction to your products and solutions.

Programme – tentative

Date & Signature: _____

Please return the completed registration form to Confederation of Danish Industry, no later than 5 February 2016 to international@di.dk

Registration conditions are in accordance with Confederation of Danish Industry's terms of participation in Export Promotion Events (following page). Please note that to qualify for the subsidy from The Trade Council Danish companies cannot receive more than 200.000 Euro in "de minimis" support in a period of three years preceding this delegation.

General Conditions for Participation in Export Promotion Events under the Auspices of the Confederation of Danish Industry (DI)

1. Basis of the agreement/contract

The contractual basis for participation in a collective export promotion event under the auspices of DI is comprised by: 1) a binding registration form filled in and signed by a duly authorized representative of the company, and 2) these present general conditions for participation.

2. Conditions for participation

The extent and conditions of participation as well as the services to be provided by DI are laid out in the presentation material sent, which includes a description of the practical implementation of the export promotion event. By signing the binding registration form, participating companies give their approval of the presentation material sent and of the prices, conditions and provisions described therein.

DI is under obligation to supply the services described in the presentation material. The participating companies are obligated to comply with the conditions for planning and implementing the export promotion event described in the material, including meeting the deadlines given for sending in material etc. to DI.

DI provision of services is conditional on not being delayed or prevented by force majeure, including but not limited to war, lockout, strikes, civil commotion, natural disasters or other circumstances beyond the control of DI. If an export promotion event is cancelled due to any above mentioned circumstances, the companies registered are under an obligation to pay their share of costs already defrayed during preparation, insofar as these costs cannot be covered by co-financing via export promotion funds.

3. Financial conditions

By returning the binding registration form, the company commits itself to paying the cost indicated for participating in the export promotion event. DI's cost calculations (see material sent) are based on a minimum number of participants. Should this minimum number of participants not register, DI reserves the right to cancel the event or send out revised material containing new prices, which will form the basis for the possible implementation of the promotion with a reduced number of participants. DI reserve the right to adjust the prices given to follow changes in exchange rates, in the event of increases in rental for the premises, and in the event of higher prices due to common decisions about changing and expanding the event relative to the original material sent out.

4. Invoicing

Unless otherwise agreed, invoices will be issued as follows: 1) 100% on account with binding registration, 2) final invoice when the event is over and after all costs, such as any extra services agreed upon, are included. In the event that DI's terms of payment are not met, DI reserve the right to consider the agreement repudiated in accordance with section 6.

5. Co-financing

In the event that co-financing can be expected via general export promotion funds, participating companies are obligated to provide the necessary documentation and other information relevant to co-financing of the export promotion event.

6. Cancelling the agreement

Registering for an export promotion event is binding once the registration form has been filled in and sent to DI. Thus DI has a claim on the price agreed regardless of whether the company subsequently cancels or reduces its participation.

7. Transport and insurance

Participating companies are requested to buy their own necessary insurance for their own employees and own goods, exhibition and information materials, covering damage incurred in transit or during the event.

8. Venue

In the event of any dispute or controversy between the parties regarding the interpretation or construction of the conditions for participation or an alleged breach of contract by either party to this agreement, such dispute or controversy shall be settled by arbitration.
