1. Please select from the drop down lists below the broad public health-related field/s in which your research expertise lies:

If clinical, list field of practice:

If clinical, list field of practice:

2. Please select **up to four** items below that best describe your research content expertise:

- |  |   |   |
|--|---|---|
| <input type="checkbox"/> Aboriginal & Torres Strait Islander Health      | <input type="checkbox"/> Health funding                                   | <input type="checkbox"/> Nutrition                              |
| <input type="checkbox"/> Adolescent & young adult health                 | <input type="checkbox"/> Health information & technology                  | <input type="checkbox"/> Obesity                                |
| <input type="checkbox"/> Ageing  | <input type="checkbox"/> Health policy / public health policy             | <input type="checkbox"/> Occupational health & safety           |
| <input type="checkbox"/> Alcohol   | <input type="checkbox"/> Health promotion                                 | <input type="checkbox"/> Oral health                            |
| <input type="checkbox"/> Ambulatory care                                 | <input type="checkbox"/> Health services management / administration      | <input type="checkbox"/> People with disabilities               |
| <input type="checkbox"/> Asthma  | <input type="checkbox"/> Health systems                                   | <input type="checkbox"/> Perinatal, infant & child health       |
| <input type="checkbox"/> Other respiratory diseases                      | <input type="checkbox"/> Health workforce                                 | <input type="checkbox"/> Pharmacy                               |
| <input type="checkbox"/> Cancer  | <input type="checkbox"/> Hepatitis / gastro-intestinal & liver conditions | <input type="checkbox"/> Physical activity                      |
| <input type="checkbox"/> Cardiovascular disease                          | <input type="checkbox"/> HIV/AIDS   | <input type="checkbox"/> Primary care / community health        |
| <input type="checkbox"/> Carers  | <input type="checkbox"/> Other infectious diseases                        | <input type="checkbox"/> Quality of life                        |
| <input type="checkbox"/> Clinical governance                             | <input type="checkbox"/> Hospital / acute care                            | <input type="checkbox"/> Refugees                               |
| <input type="checkbox"/> Community development                           | <input type="checkbox"/> Illicit drugs                                    | <input type="checkbox"/> Rehabilitation                         |
| <input type="checkbox"/> Consumer participation                          | <input type="checkbox"/> Immunisation                                     | <input type="checkbox"/> Renal disease                          |
| <input type="checkbox"/> Culturally & linguistically diverse communities | <input type="checkbox"/> Injury   | <input type="checkbox"/> Safety & quality                       |
| <input type="checkbox"/> Diabetes  | <input type="checkbox"/> International health                             | <input type="checkbox"/> Screening / diagnostic test evaluation |
| <input type="checkbox"/> Endocrine disease                               | <input type="checkbox"/> Maternal health                                  | <input type="checkbox"/> Sexual & reproductive health           |
| <input type="checkbox"/> Environmental health                            | <input type="checkbox"/> Men's health                                     | <input type="checkbox"/> Smoking                                |
| <input type="checkbox"/> Genetics  | <input type="checkbox"/> Mental health                                    | <input type="checkbox"/> Social determinants of health          |
| <input type="checkbox"/> Haematological disease                          | <input type="checkbox"/> Monitoring & surveillance                        | <input type="checkbox"/> Women's health                         |
| <input type="checkbox"/> Health care evaluation                          | <input type="checkbox"/> Musculoskeletal problems                         |   |
| <input type="checkbox"/> Health equity                                   | <input type="checkbox"/> Nervous system diseases                          |   |

3. If desired, please enter from the list of NHMRC Research Keywords/Phrases (<http://www.nhmrc.gov.au/grants/policy/files/keyword1.pdf>) **up to four** terms that describe your particular content expertise not specified above:

4. Please indicate if you have been involved in conducting the following types of systematic review:

- A Cochrane or Cochrane-style review of evidence of the effects of a healthcare intervention  
If yes, what was your role (eg review group coordinator, author, external peer reviewer):
- A meta-analysis using statistical techniques to integrate the results of more than one study  
If yes, what was your role (eg advisor, author, statistician):
- Other rigorous review techniques  
If yes, please specify:

5. Please provide an estimation of the number of papers and government reports you have published:

Number of peer reviewed journal papers published:

Number of government reports authored:

6. Please list any other important achievements, in addition to your publications, which describe your research expertise:

**NOTE: PLEASE ATTACH A CURRENT CV TO YOUR EMAIL BEFORE PRESSING 'SEND'**
