# SPECIAL INSPECTION OF STRUCTURAL MASONRY CONSTRUCTION SEMINAR

April 26, 2012  
Phoenix, Arizona

Presented by

With the Support of:

and

Arizona Masonry Contractors Association

MASONRY SEMINAR OFFERINGS, THURSDAY, April 26, 2012

With the support of numerous local organizations and companies, The Masonry Society (TMS) will present an intensive and interesting seminar on Special Inspection of Structural Masonry Construction on Thursday, April 26, 2012 in Phoenix, Arizona. This is an excellent way to prepare for the ICC Special Masonry Inspector's Examination, to gain continuing education for current inspectors, to learn what inspector's are looking for, and to find out what the Code requires related to inspection of masonry.

Look inside this flyer for details on this important seminar!

## Seminar Description

### Special Inspection of Structural Masonry Construction Thursday, April 26, 2012– 8 am to 5 pm

Recently updated to the 2009 IBC, this seminar is perfect for those needing to inspect masonry but who are unfamiliar with its construction, and for everyone considering taking the ICC/TMS Structural Masonry Special Inspectors Certification Examination. Those needing a refresher on inspection and masonry construction will also find the seminar valuable.

Topics covered will include:

- Basic masonry terms
- Masonry material requirements including brick, block, mortar, reinforcement, connectors, and grout
- Proper mortar mixing
- Explanation of basic masonry construction techniques: unit placement, installation of pipes and conduits, and placement of reinforcement
- Proper grout mixing and placement
- Explanation of field test procedures: inspection of masonry units; fresh mortar and grout; and the preparation, handling, and storage of prisms
- Proper preparation, construction, and protection procedures when dealing with both hot and cold weather construction conditions
- Explanation of inspection duties and reporting responsibilities

## Seminar Costs

The cost per attendee for each seminar is:

- Early Registration Discount Rate - \$260 per person (\$195 for Members) registering before March 26, 2012
- Regular Registration Rate - \$320 per person (\$255 for TMS Members) registering after March 26, 2012
- Full time students who submit an approved class list may attend for \$100.
- Contact the TMS office for discounts applicable to 5 or more employees from one company.

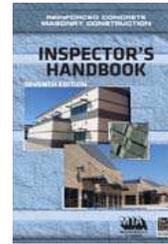

Registration fees include the seminar handout, continental breakfast, lunch, and afternoon break.

## Seminar Handouts

Each seminar attendee will receive a copy of the comprehensive set of Audience Notes that contain a printed copy of the PowerPoint Presentation that will be used for the seminar. This helpful handout guides attendees through the presentation and identifies key areas of inspection and the various code requirements related to inspection.

## Recommended Seminar References

This seminar is based on the requirements of the 2009 International Building Code, which references the requirements of the 2008 “MSJC” Standard. As such, attendees are advised to bring copies of these resources to the seminar. Alternatively, the 2009 Masonry Codes and Specifications Compilation (see below) contains the applicable requirements of both the IBC and the MSJC related to masonry inspection. In addition, attendees may also wish to bring a copy of the Reinforced Concrete Masonry Special Inspectors Handbook, 7th Edition which is an excellent field reference. All of these materials will be needed by those planning to take the ICC Special masonry Special Inspector’s Certification Exam. For those not having these resources, you can order copies directly from The Masonry Society at special, seminar only, prices.

You may also order copies of other publications from The Masonry Society for pick-up at the seminar by calling TMS at 303-939-9700. By picking the publications up at the seminar, you save on shipping and handling costs. You may view the complete listing of TMS publications on-line at our E-store at [www.masonrysociety.org](http://www.masonrysociety.org).

## Certificates of Attendance

The Masonry Society will offer certificates of attendance to attendees staying for the entire seminar which can be used for continuing education credits. Certificates will be emailed to attendees after the seminar.

## Seminar Instructors

**John Chrysler, P.E.** is the Executive Director of the Masonry Institute of America and has been a member of the masonry industry since 1968 as a contractor, licensed Civil Engineer and Certified Structural Masonry Inspector. He is a well known author of numerous books and articles, including the popular “Reinforced Concrete Masonry Construction Inspector’s Handbook”.

Chrysler serves on numerous committees and organizations, and is Past President of The Masonry Society. He also serves on the Masonry Standards Joint Committee (MSJC), which is responsible for the development and maintenance of provisions in the MSJC Code and Specification that serve as primary references for the International Building Code. He has served on the ICC/TMS Special Masonry Special Inspector’s Examination Committee since its inception.

**Phillip J. Samblanet, P.E.** is the Executive Director of The Masonry Society and a structural designer and inspector by training. He has extensive background in masonry design, construction, and inspection both in practice and as an educator. Samblanet serves on the ICC/TMS Structural Masonry Special Inspector’s Examination Committee, and as a

former member of the Masonry Standards Joint Committee, he served as secretary for the Task Group to develop the first set of inspection requirements for these standards. His inspection experience extends beyond masonry and includes long span bridges, water tanks, and buildings of other materials. He has written numerous articles and portions of books on masonry design, construction, and inspection.

## Seminar Location, Room, and Meals

This special masonry seminar will be held at the Black Canyon Conference Center, 9440 North 25th Avenue, Phoenix, AZ 85021. Lunch and refreshment breaks will be provided.

## For More Information

If you have questions about this seminar or other activities of the Society, contact TMS at 303-939-9700 or [info@masonrysociety.org](mailto:info@masonrysociety.org).
