\*Founded in 2012 in Paris, SKIN is an association 1901 Law which helps women who suffer or have been suffering a breast cancer, thanks to the establishment of a creative partnership: woman-artist. Together, they create works of art (photography, drawing, sculpture, video, painting, singing, dancing ...) and exhibit it in a prestigious place in Europe and across the whole world. Then, SKIN relays these exhibitions, in the form of pictures, in breast cancer services and communicates with hospitalized women on the benefits of the project. In their turn, they can be a part of this project. SKIN helps women in their rebuilding process.
