**Fall/Spring  
2012-2013  
School Year  
for children ages  
3, 4 and 5**

**F**or more than 63 years, Museum School has been opening young minds to a world of natural wonder. Founded in 1949, the program was first called the "Frisky and Blossom Club." Now the Fort Worth Museum School continues to be a national model for informal science education.

The curriculum combines natural and physical science, history and anthropology with art, music and literature. The playful learning environments are supported by artifacts and specimens from both science and history teaching collections.

The richness of real objects, curatorial support and a dedicated staff ensure first-hand, developmentally-appropriate learning experiences that enrich children's lives.

Fort Worth Museum School is proud to inspire a third generation of early learners and their families.

## ■ General Information

Students who are currently enrolled may pre-register for the fall/spring program. Therefore, space may be limited in some classes.

Class changes are made on a first-come basis. Because most classes have a waiting list after registration, no child may switch places with another child.

Museum School attempts to maintain an equal ratio of boys and girls in all classes. However, the demand for enrollment occasionally results in classes that are not coeducational. Museum School admits students of any race and national or ethnic origin.
