****NOTE: ALL FLIGHT TIMES LISTED ARE LOCAL TIME FOR THE CITY INDICATED****

Flight numbers and flight times may be altered at the airline's discretion.

Ms. Kelly Bianchi Agriculture Instructor at San Benito High School will be in charge of your departure flight and will coordinate the flight preparation activities. You are to meet her at the main **AMERICAN AIRLINES DOMESTIC TRAVEL TICKET COUNTER** at SAN FRANCISCO International Airport. **Ms. Bianchi will have your airline tickets for this travel group. Find Ms. Bianchi to check-in and receive further information.**

YOU ARE REQUIRED TO CHECK IN WITH YOUR AIRLINE 90 MINUTES BEFORE THE SCHEDULED DEPARTURE TIME. This is federal regulation. If you arrive late, you may find yourself paying for a new ticket on a different flight or staying home. **YOU MUST HAVE A VALID PHOTO IDENTIFICATION IN YOUR POSSESSION** to be checked in and to board the aircraft. An official school photo ID is generally accepted if you are under 18 years of age and have no drivers license. If you are 18 years of age or older, you MUST have a government-issued photo ID.

The Federal Transportation Security Agency recommends that valuables such as electronic devices, cash, jewelry, etc. be carried aboard the aircraft with you in your carry-on luggage. Federal regulations with regard to carrying aboard liquids and gels are strictly enforced. Be certain to carefully follow these regulations regarding carry on items:

Travelers may carry through security checkpoints **travel -size toiletries (3 ounce of less per item) that fit comfortably in ONE, QUART-SIZE, clear plastic, zip-top bag.**

After clearing security, travelers can now bring on board aircraft beverages and other items in the secure boarding area. At the security checkpoint, travelers will be asked to remove the zip-top bag of liquids and place it in a bin or on the conveyer belt. X-raying separately will allow TSA security officers to more easily examine the declared items.

For a complete list of acceptable and unacceptable items onboard American Airlines, as well as specifics regarding acceptable identification, please see the Transportation Security Agency's website at:

<http://www.tsa.gov/travelers/index.htm>.

Any travelers with medical conditions requiring the carrying of medicines aboard aircraft – especially those medicines in liquid or gel form – are strongly recommended to consult the Transportation Security Administration's rules regarding medications at the website noted. Many medications, especially those in liquid or gel form, must now be declared to TSA officials at security checkpoints at airports. The form required for declaring these items can be downloaded at the website noted above.

Do **NOT** check your luggage outside the terminal building with a skycap. Luggage must be checked in at the ticket counter in the main terminal building when you check in with your group leader. **IMPORTANT NOTE: Airline luggage regulations have changed substantially over the past year. Most airlines charge fees for checked baggage onboard the aircrafts. YOU must be prepared to pay any applicable baggage fees to the airline when you check in at the airport. These fees will be charged by airlines every time you check in at an airport for a new trip.** That means, you will pay **BAGGAGE FEES TWO TIMES ON THE REGULAR TRIP AND THREE TIMES IF YOU ARE GOING TO D.C.** Additionally, airlines have very strict regulations about the dimensions and weight for BOTH check AND carry-on bags. **BE PREPARED! TAKE TIME NOW and find out from your airline and familiarize yourself with the restrictions and regulations on luggage.** Be absolutely certain you pack according to these requirements and be ready to pay any applicable baggage fees or your luggage **MAY BE LEFT BEHIND!** Be sure to check with each airline if you are traveling with multiple airline carriers.

For a complete list of acceptable and unacceptable items onboard American Airlines, as well as specifics regarding acceptable identification, please see the Transportation Security Agency's website at:

<http://www.tsa.gov/travelers/index.htm>.

Any travelers with medical conditions requiring the carrying of medicines aboard aircraft – especially those medicines in liquid or gel form – are strongly recommended to consult the Transportation Security Administration's rules regarding medications at the website noted. Many medications, especially those in liquid or gel form, must now be declared to TSA officials at security checkpoints at airports. The form required for declaring these items can be downloaded at the website noted above.

Do **NOT** check your luggage outside the terminal building with a skycap. Luggage must be checked in at the ticket counter in the main terminal building when you check in with your group leader. **IMPORTANT NOTE: Airline luggage regulations have changed substantially over the past year. Most airlines charge fees for checked baggage onboard the aircrafts. YOU must be prepared to pay any applicable baggage fees to the airline when you check in at the airport. These fees will be charged by airlines every time you check in at an airport for a new trip.** That means, you will pay **BAGGAGE FEES TWO TIMES ON THE REGULAR TRIP AND THREE TIMES IF YOU ARE GOING TO D.C.** Additionally, airlines have very strict regulations about the dimensions and weight for BOTH check AND carry-on bags. **BE PREPARED! TAKE TIME NOW and find out from your airline and familiarize yourself with the restrictions and regulations on luggage.** Be absolutely certain you pack according to these requirements and be ready to pay any applicable baggage fees or your luggage **MAY BE LEFT BEHIND!** Be sure to check with each airline if you are traveling with multiple airline carriers.

Travelers may carry through security checkpoints **travel -size toiletries (3 ounce of less per item) that fit comfortably in ONE, QUART-SIZE, clear plastic, zip-top bag.**

After clearing security, travelers can now bring on board aircraft beverages and other items in the secure boarding area. At the security checkpoint, travelers will be asked to remove the zip-top bag of liquids and place it in a bin or on the conveyer belt. X-raying separately will allow TSA security officers to more easily examine the declared items.
