**EXHIBIT A
RESOLUTION 1089**

The State Historic Preservation Office (SHPO) has directed Jacksonville to determine a Period of Significance for our Historic Landmark District. The HARC has had several discussions during open public meetings on the SHPO report and the recommendations contained therein. HARC hereby recommends the following Periods of Significance be adopted by the City of Jacksonville:

Primary Period of Significance – **1852-1884**

These are the buildings described in the original 1966 nomination that set the town apart. Those structures deemed contributing to this Period will be subject to the highest level of scrutiny.

Secondary Period of Significance – **1884-1920**

These buildings represent the second generation of families and businesses that continued to live in the area and are some of the more recent historic buildings.

Tertiary Period of Significance – **1920-1945**

The Great Depression Era and Pre World War II

Quaternary Period of Significance – **1945-1966**

Post World War II up to Jacksonville's Original Nomination as a National Historic Landmark District
