Next Generation of Risk Management
for Community Banks
July 25-26, 2004
Boulder, CO

This one and one-half day seminar focuses on best practices in *risk management* for community banks. Speakers will examine the strengths and weaknesses of current risk management practices and policies, describe recent enhancements and explain what the best risk management practices will look like going forward. Specific attention will be directed toward operational risk, loan portfolio management, interest rate risk analytics and investment security purchases/ sales.

Sunday, July 25th
