

GAP ANALYSIS FOR POST-GRADUATE DNP STUDENT

Name of Student: _____

Is New National Specialty Certification Sought: Yes ____ No ____ If YES, preparing for new specialty in: _____

Existing graduate level specialty preparation in: _____ School: _____ Yr: _____

Instructions:

Use this form for a student who is a post-MN DNP student. The form should be completed after a thorough analysis of completed coursework and clinical experiences compared with the program requirements and national DNP competencies necessary for program completion.

- In column 1, list the courses for the standard required program of study required for preparation in the desired area of practice.
- In column 2, list courses from the student's transcript that will be used to waive courses from column 1. List the course on the same or equivalent line as the course in column 1. A maximum of 30 credits may be waived from a prior PhD or master's degree from another accredited college. **Maximum does not apply to Master's degrees from UW.** Note that Course work > 10 years old at graduation must be deemed to have continued relevance.
- In column 3, identify and describe clinical hours and experiences needed to meet the required competencies for the new or desired area of DNP practice. The student must meet the clinical course requirements of the program of study using both clinical courses previously taken and indicated on the transcript and courses to be completed.
- List all coursework to be completed for the degree (all courses from column 1 not waived). This column, in combination with column 3, will constitute the student's individualized program of study.
