Making it Easy - Two Plans Made to Fit

The ENMAX Energy / AHLA Power Program offers AHLA members a choice of two options, helping you make the right choice for your business.

Electricity Load Following Plan

If you are a hotel, motel or campground with predictable usage, then the Load Following Plan may be optimal for your business. This Plan offers:

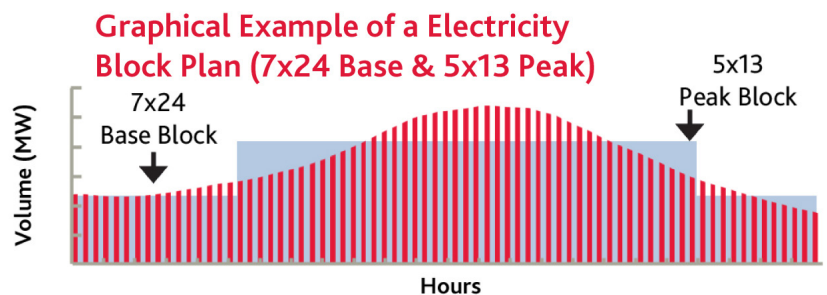

- A fixed electricity rate for established monthly energy amounts
- The ability to forecast energy costs on a month-to-month basis
- Protection from market price fluctuations and volatility
- Volume flexibility whereby your monthly consumption may vary within established threshold bands and still receive the contracted fixed electricity rate

Electricity Block Plan

This Plan offers a fixed electricity rate for an established volume of electricity for a specific period of time.

- An established fixed electricity rate for specific blocks of energy
- Blocks optimized to your usage pattern
- Elimination of market exposure for specific blocks of energy
- Reduction of your company's overall exposure to the volatility of the energy market
