## (Trial) Application to become a Foster Carer for the Dogs' Homes of Tasmania

Thank you for your interest in becoming a Dogs' Homes of Tasmania foster carer. The objective of fostering is to house the dog in private care until a suitable home can be found or they are able to return to the Home. Not only do foster parents maximize the number of dogs rescued, they also help to care for dogs for whom a kennel environment is not suitable: puppies with immature immune systems, dogs recovering from major surgery, or those needing one-on-one behaviour rehabilitation or a break from the Home. Fostering can be extremely challenging as well as rewarding, and should be entered into carefully. Please see *Terms and Conditions of Foster Care* (attached). We are committed to providing the best possible care for our dogs in both the Dogs' Home and Foster Care setting and we ask that you complete the following application with this in mind.
