**Web: [www.geography.org.uk](http://www.geography.org.uk)**

## Try out our journals for free!

If you would like to see how great our journals are before joining, or if you are a current member who is interested in trying an additional journal, e-mail Nicola Donkin

([ndonkin@geography.org.uk](mailto:ndonkin@geography.org.uk)) for your **free** sample copy. Please state if you would like to receive *Geography*, to update your subject knowledge; *Teaching Geography*, full of practical classroom advice and activities for secondary teachers; or *Primary Geographer* to gain an understanding of the primary curriculum today.

## Who are we?

The GA is a lively *subject association* with a proud history of innovation and an unrivalled understanding of geography teaching. Most members join the GA for the advice and resources they need every day in the classroom. Many enjoy closer involvement, by volunteering for special interest working groups, sharing their skills and experiences with fellow teachers and helping drive the GA and geography forward.

## What do we do?

The GA promotes, supports and develops geography *subject leadership* at all levels, from new teachers in their initial training to geography subject leaders in primary schools and heads of department in secondary schools.

## What's so special about geography?

Geography helps us make sense of the world. It tackles the big issues: environmental responsibility; our global interdependence; cultural understanding and tolerance; commerce, trade and industry.

Strong, purposeful and enjoyable geography is essential to any school or college curriculum.

## Curriculum development

The GA supports 'teacher-led' local curriculum development projects, currently under the DCSF-funded Action Plan for Geography, and has also shown how a strong and confident community of geography teachers can work productively in cross-curricular settings.

## National and local

Much of the GA's work is co-ordinated nationally. The GA also has a highly valued network of affiliated Branches, each with its own identity and its own priorities. Some new GA Branches are oriented around the notion of '*Living Geography*' – local resources and expertise harnessed to share approaches to teaching and learning about sustainable futures in the local area.

## International

With members in over 40 countries, the GA has always had a strong interest in international understanding and offers grants for international initiatives.

# Personalised subject CPD for you

## Membership

As well as your termly journal, termly copy of *GA Magazine* and discount on publications and conference fees, GA membership also offers the opportunity to be part of a geography community with access to local branch meetings and online support networks.

## Conferences

The GA Annual Conference and Exhibition is the largest CPD event of its kind. Full details at [www.geography.org.uk/annualconference](http://www.geography.org.uk/annualconference).

## Publications

The acclaimed *Secondary Geography Handbook* forms the core in-school CPD resource for secondary geography departments. New and forthcoming resources for secondary and post-16 geography are described on pages 3-6; full descriptions of the whole range of GA resources can be found at [www.geographyshop.org.uk](http://www.geographyshop.org.uk).

## Action Plan for Geography

The GA, jointly and equally with the RGS-IBG, is leading the DCSF-funded Action Plan for Geography, enhancing the teaching and learning of geography in schools. See [www.geographyteachingtoday.org.uk](http://www.geographyteachingtoday.org.uk).

## Projects

The GA leads the way with innovative school-based curriculum development – see [www.geography.org.uk/projects](http://www.geography.org.uk/projects) for full details of the many ongoing projects.

## Quality Marks

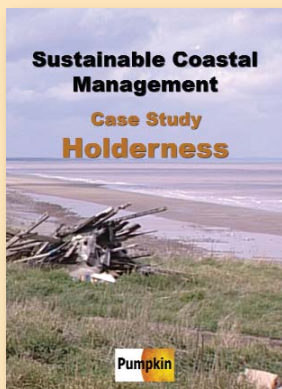

The GA's Primary and Secondary *Geography Quality Marks* lie at the heart of its support strategy, identifying quality criteria and appropriate tools for developing quality practice in schools. See [www.geography.org.uk/pgqm](http://www.geography.org.uk/pgqm) (for primary) and [www.geography.org.uk/sgqm](http://www.geography.org.uk/sgqm) (for secondary).

**Download a membership application form, or join online, at [www.geography.org.uk/login\\_join.asp](http://www.geography.org.uk/login_join.asp) or phone 0114 296 0088.**

# New DVDs for flexible use at KS3, GCSE and post-16

Price (each) inc VAT: £39.99 (GA members),  
£45.99 (non-members)

## Sustainable Coastal Management: Case study – Holderness

**Pumpkin TV**  
**GCSE and post-16**  
**ISBN 978-1-84377-225-5**

A brilliant resource for teaching about sustainable environments, this DVD investigates the coastline from Flamborough Head to Spurn Point, looking at the causes, effects and management of coastal erosion. It shows a variety of landforms created along the

coast, the issues that result from them and the different ways in which they are managed – including hard and soft engineering.

The DVD also contains in-depth support documents in Word format, including student notes to aid understanding and teachers' notes containing approximately six hours' worth of suggested lesson plans.

## Population Change: Migration in the UK – causes, impacts and management

**Pumpkin TV**

**GCSE and post-16**  
**ISBN 978-1-84377-226-2**

The UK is experiencing a period of rapid migration. This DVD explores the push and pull factors for migrants, the impacts that population movements have on both the source regions and receiving countries and how these flows can be managed. It uses a

range of case studies, including: economic migrants from Poland and Latvia; Kurdish asylum seekers; and an illegal immigrant from Africa. All encourage students to think about migrants' differing countries of origin, motivations, intended durations of stay, and socio-economic situations both in the UK and their country of origin.

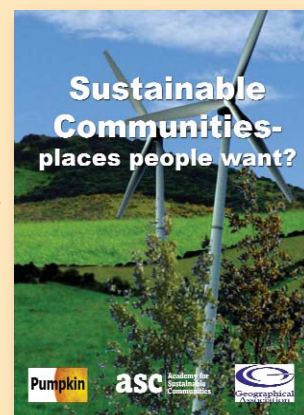

## Sustainable Communities – places people want?

**Pumpkin TV**

**KS3, GCSE and AS**  
**ISBN 978-1-84377-222-4**

Encouraging students to investigate their own communities is a key element of the new geography curriculum. This DVD offers an enquiry approach to 'My community' through a variety of accessible case studies from around the UK, featuring people and situations which will be familiar to students.

The DVD consists of an introductory video-short, three 15-minute programmes, Q&A cameos about careers, a PowerPoint presentation, teachers' guidance and students' worksheets.

## Ageing Populations: A European case study DVD

**Pumpkin TV**  
**GCSE and post-16**  
**ISBN 978-1-84377-191-3**

*'An invaluable resource, quickly in demand by all the teachers in my department'* Rachel Atkins, Head of Geography, Bristol Grammar School

This East Devon case study explores the nature, causes and consequences of an ageing population. It covers the

strain on various sectors from healthcare to housing and shows how governments, NGOs and individuals are meeting the challenges.

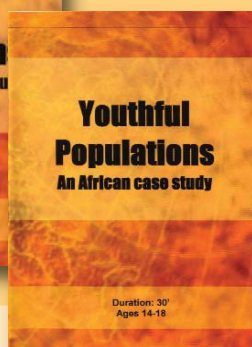

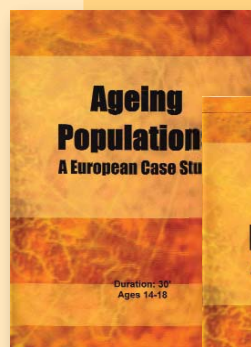

## Youthful Populations: An African case study DVD

**Pumpkin TV**  
**GCSE and post-16**  
**ISBN 978-1-84377-192-0**

This documentary on the youthful population of Gambia explores the resulting issues and implications. It covers the role of family planning, pressures on resources and the environment and how governments and NGOs are working together to provide schools, housing and healthcare.

Both resources contain a 30-minute documentary, PowerPoint lessons, photocopiable thinking skills activities, background case study material and links to related internet sources.

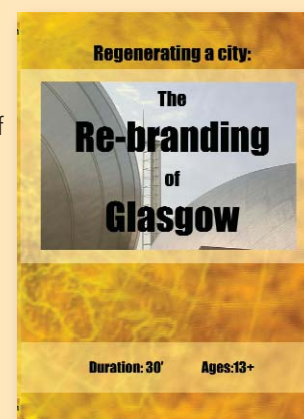

**Available as a set for £69.99 inc VAT (GA members), £79.99 inc VAT (non-members).**

## Regenerating a City: The re-branding of Glasgow

**Pumpkin TV**  
**GCSE and post-16**  
**ISBN 978-1-84377-206-4**

This programme explores the effects of urban decline and strategies for urban renewal through the example of Glasgow, where a major re-branding initiative, extensive dockside development and housing stock improvements have made it one of the most prosperous cities in the UK. The resource contains a 30-minute documentary, photocopiable thinking skills activities, further background case study material and links to related internet resources.

# New for key stage 3

We are pleased to announce a timely package of support for teachers facing the challenge of the new key stage 3 curriculum.

## KS3 Geography Teachers' Toolkit

Series editors:

**Alan Kinder and John Widdowson**

Price (each) £9.99 inc VAT (GA members),  
£14.99 inc VAT (non-members)

40-page book plus CD

The *KS3 Geography Teachers' Toolkit* is designed to help you meet the challenges of teaching the new key stage 3 curriculum. The series draws on the Key Concepts, Key Processes and Curriculum Opportunities in the new Programme of Study and applies them to selected Range and Content. Each title in the series illustrates ways of exploring a place,

theme or issue of interest to young people and of geographical significance in the twenty-first century, through approximately 10 hours' worth of lesson plans. The selection of content is carefully explained, ideas are clearly linked to the new PoS, and advice is provided on teaching strategies to engage and challenge all your learners.

Materials in the *Toolkit* have been designed to be flexible:

- you can use them directly in the classroom, with minimal preparation
- you can extend them, and encourage

students to 'dig deeper'

- you can adapt them for your own students as the teaching strategies are explained throughout each book
- you can build on them, writing your own new curriculum materials.

Each book has an accompanying CD which contains all the resources needed for each of the lesson plans. Additional support for each book is planned to appear on the GA website in 2009. The CDs feature a wealth of images to support each topic, plus ready-to-use lesson resources which you can personalise to your own requirements.

Details of individual titles in the series, with approximate publication dates, follow.

Visit [www.geography.org.uk/secondary](http://www.geography.org.uk/secondary) for some sample pages.

## Planning your key stage 3 geography curriculum

by Eleanor Rawling

Key stage 3

64 pages

Price £9.99 (GA members),

£14.99 (non-members)

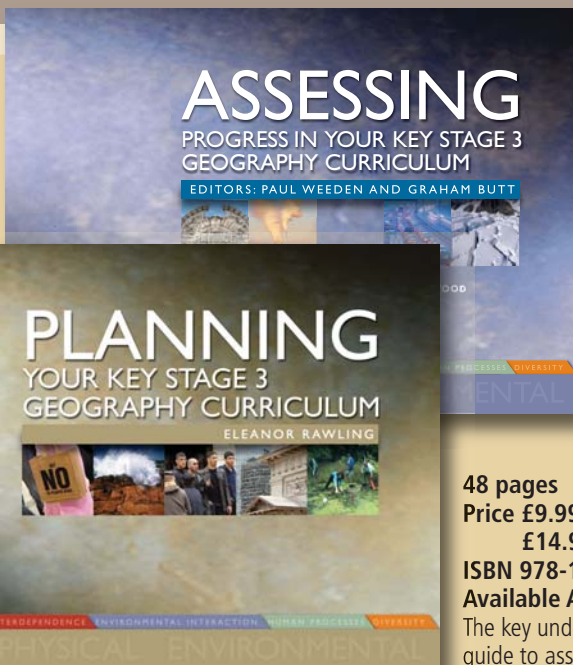

ISBN 978-1-84377-200-2

Available now

'Your *'Planning'* book is brilliant... I will find your book enormously helpful in explaining the new curriculum to my PGCE students. Thanks for a very, very helpful publication.'

Melanie Norman, PGCE  
(Secondary) Course Leader,  
University of Brighton

This school year has seen the introduction of the new key stage 3 Programme of Study. This is a tremendous opportunity to be really creative and design a very different looking key stage 3! It is also quite a challenge to ensure that your geography curriculum is

right for you and your students whilst still meeting the national requirements. Help is here in the form of this book! *Planning your key stage 3 curriculum* is designed to help you get to grips with the changes, stimulate your students and understand how it affects your current schemes of work and resources.

## Assessing progress in your key stage 3 geography curriculum

Editors: Paul Weeden and Graham Butt

48 pages

Price £9.99 (GA members),  
£14.99 (non-members)

ISBN 978-1-84377-224-8

Available April 2009

The key underlying principle of this practical guide to assessing the new key stage 3 curriculum is that 'merely measuring and recording a child's performance does not help improve standards'. Guidance on incorporating effective AfL into a school framework that requires regular reporting of assessment data will help you judge standards and help students know what they need to do to improve.

# New student resources

## GIS for A-level geography

by Peter O'Connor  
AS and A level

224-page book plus two CDs

Price inc VAT: £29.99 (GA members),  
£39.99 (non-members)

ISBN 978-1-84377-210-1

Available: December 2008

Note: This resource is available in the UK only due to software licensing

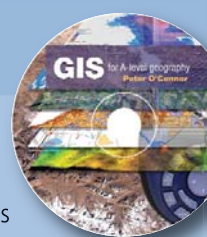

Geographical Information Systems (GIS) are the most powerful set of tools in existence for the analysis and visualisation of spatial information, and GIS is central to the

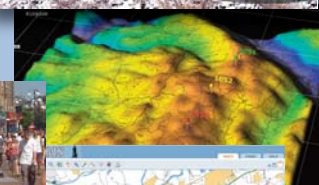

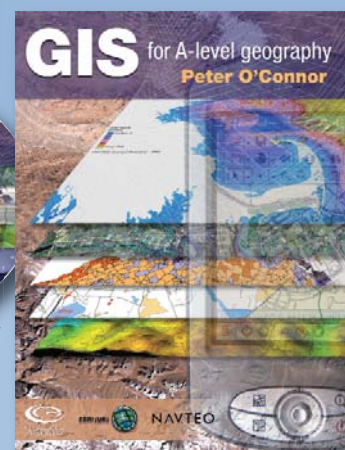

ESRI UK  
VISIONARY THINKING

application of geography to real-world problem solving. Its growing importance is reflected in the new A-level specifications, all of which include modules that revolve around teaching and understanding of methods of geographical investigation. *GIS for A-level geography*, written specifically for secondary level education, offers A-level geography students an accessible introduction to industry-standard GIS.

Produced in collaboration with ESRI (UK), the UK's leading GIS provider, and including ArcView 9.2 software with a 12-month licence plus a DVD of digital map data for England, Peter O'Connor's new book is a complete guide to the theory and

applications of GIS, with five practical exercises, described step-by-step.

Visit [www.geography.org.uk/post16he](http://www.geography.org.uk/post16he) for some sample pages.

# New teaching resources

## Living Geography: Exciting futures for teachers and students

Editor: David Mitchell  
Chris Kington Publishing  
Cross-phase

240 pages

ISBN 978-1-899857-20-3

Available December 2008

Price: £39.99 (GA members),  
£45.00 (non-members)

geography ♦ physical geography and the human impact on the environment ♦ fieldwork ♦ GIS ♦ using digital media ♦ building sustainable communities ♦ applied geographical thinking (to disease) ♦ teaching living geography.

A conceptual overview is followed by classroom strategies, giving you the practical means to bring 'Living geography' into the classroom.

## Reading our Landscapes

by Charles Rawding  
Chris Kington Publishing  
KS3

168-page book plus CD  
Price inc VAT:

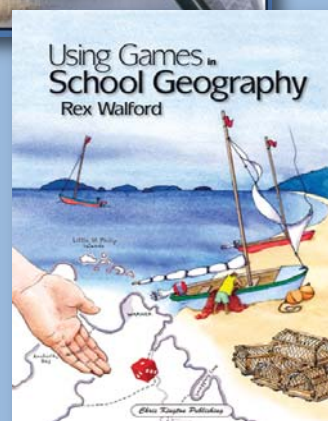

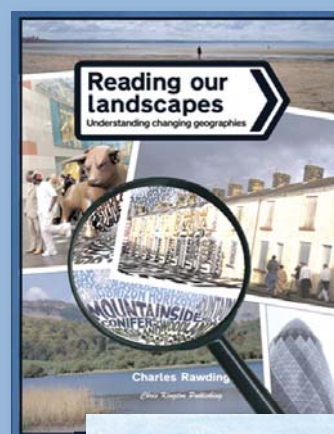

£39.99 (GA members),

£45.00 (non-members)

ISBN 978-1-899857-52-4

This book focuses on understanding place and space through an investigation of changing physical and human processes. The activities provide a range of frameworks for geographical enquiry and out-of-class learning along with a wide range of varied resources for interpreting landscapes and changing geographies.

Each of the ten sections incorporates case study material and 'possible activities' designed to support the themes being discussed.

## Using Games in School Geography

by Rex Walford  
Chris Kington Publishing  
Cross-phase

144 pages

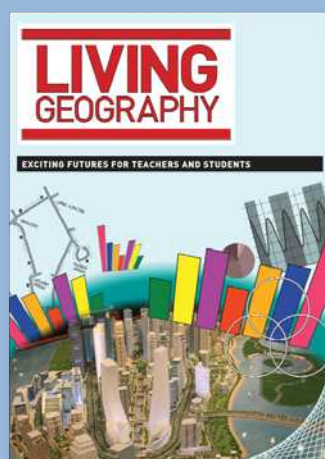

Price: £39.99 (GA members),  
£45.00 (non-members)

ISBN 978-1-899857-53-1

This exciting portfolio of tried-and-tested

games and simulations will challenge and excite your students. Each of the exercises can be applied to a particular National Curriculum strand of geography and they represent a variety of styles and complexities. As well as enriching subject teaching they also encourage students to put themselves in the place of others, developing important social skills, empathy and critical thinking.

This accessible new book is as useful for enthusiastic experienced teachers as for NQTs, containing a mixture of old favourites (that have never been published in a book before) and new ideas.

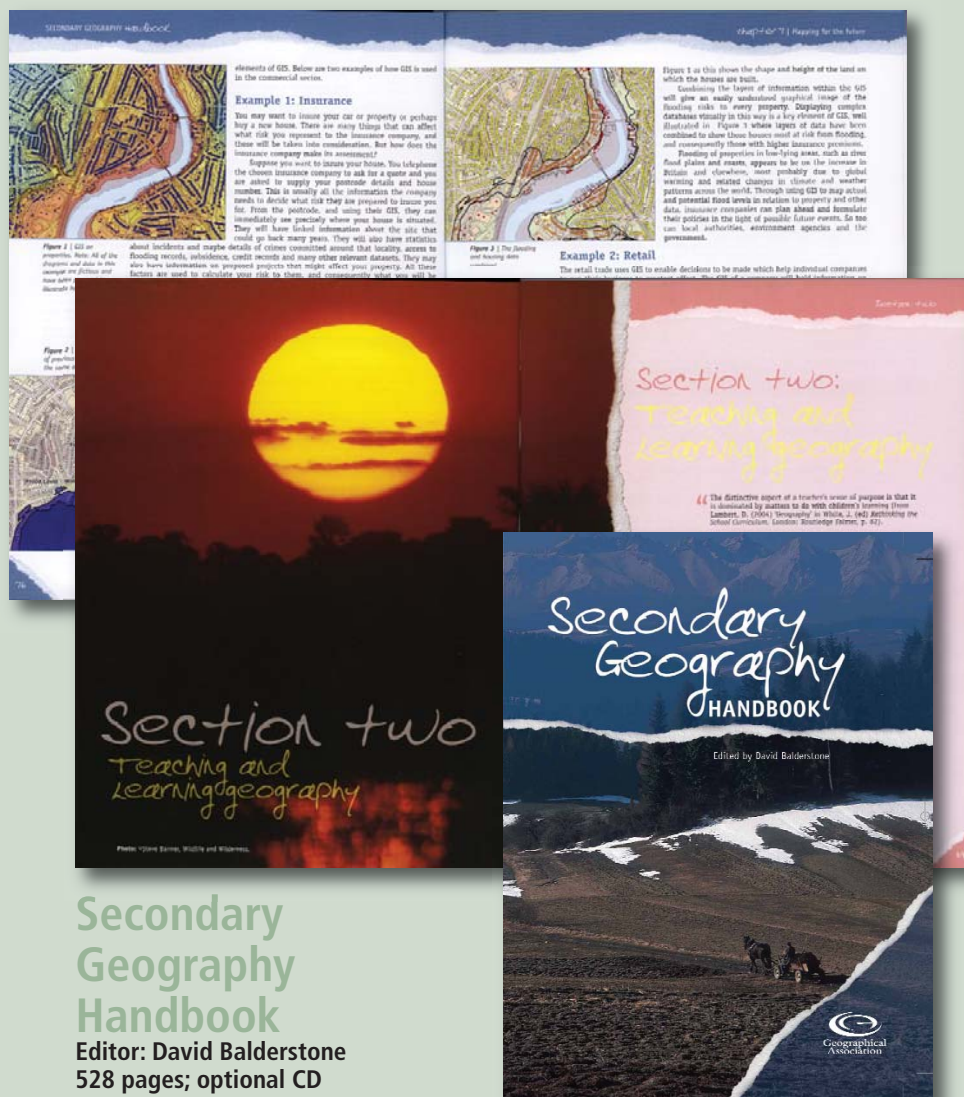

The term 'Living geography' describes a geographical education that focuses on everyday life, putting young people's concerns and futures at the centre of school geography. This book draws on recent school-based research to support you in offering

young people a concept-based curriculum they will find relevant, purposeful and exciting.

Themed chapters cover:  
Introduction to what 'living geography' means  
♦ young people's geographies ♦ education for sustainable development ♦ the global dimension ♦ a human rights approach to

# Core resources for secondary geography

## Secondary Geography Handbook

Editor: David Balderstone

528 pages; optional CD

Price (book only):

£34.99 (GA members),

£49.99 (non-members)

ISBN 978-1-84377-165-4

Price (book and CD, inc VAT):

£49.99 (GA members),

£69.99 (non-members)

ISBN 978-1-84377-166-1

The keystone of a geography department's support for its staff. Here Editor David Balderstone outlines its underlying philosophy:

'The role of this new Handbook is twofold: to inspire and support the professional learning of geography teachers, and to promote worthwhile and stimulating geographical learning for students.

'The content covers all the areas both experienced and beginning teachers and students need – from 'what's the point of geography?' through all the skills of teaching and learning, assessment, inclusivity and professional development. As geography teachers we are learners too: learning about the subject, about how students learn and about how to set up worthwhile learning

activities, so our classrooms are collaborative learning communities. The ideas and principles suggested in the book offer starting points to guide further development and support professional learning.

'The contributors are drawn from the rich diversity of geography educators – in school, teacher education, higher education and the advisory service. What unites them is the geography 'community of practice'. They each bring to the book their own experience, imagination and unique ideas; however, they also draw strength from the support they receive from our subject community in developing this contribution. This community of practice, and the collaboration it supports, are of critical importance to this book – and to helping school geography realise its true educational potential.'

Visit [www.geography.org.uk/secondary/secondaryhandbook](http://www.geography.org.uk/secondary/secondaryhandbook) for full list of contents and weblinks.

## Learning through Enquiry

### Making sense of geography in the key stage 3 classroom

by Margaret Roberts

212 pages

Price £18.99 (GA members),

£27.99 (non-members)

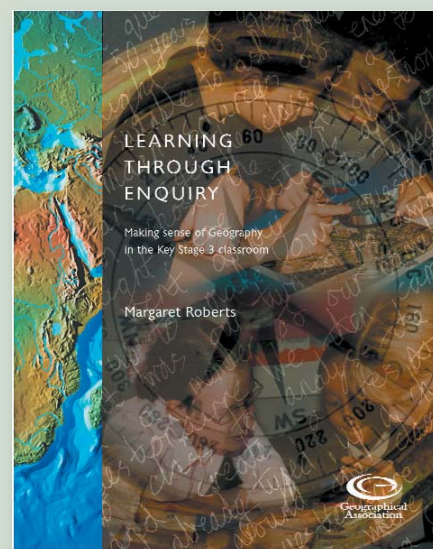

ISBN 978-1-84377-095-4

Enquiry is an integral part of the geography national curriculum, yet research evidence suggests that it is not fully established in the classroom. *Learning through Enquiry*, with its many interesting and innovative ideas, provides stimulus and support for teachers to develop enquiry at key stage 3. The book offers more than 50 examples, all tried and tested in the classroom.

Enquiry is presented as a process in which students are actively engaged in constructing geographical knowledge. At the same time as emphasising student involvement, Margaret Roberts sees a crucial role for teachers in:

- stimulating curiosity
- promoting a critical, questioning attitude towards data
- providing opportunities for students to explore new ideas and information for themselves
- encouraging students to reflect on both what and how they have learnt.

*Learning through Enquiry* explores how and why enquiry has been incorporated into the geography curriculum and emphasises the role of language in learning through enquiry. Chapters on literacy and numeracy provide guidance and practical examples to support their development alongside the development of geographical understanding.

# CPD resources for geography teachers

## GA Annual Conference 2009

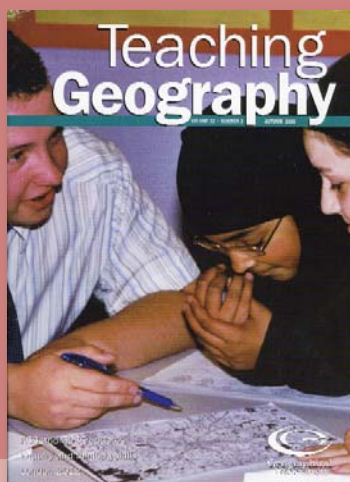

*'Great exhibition, great for updates, great for networking, great to get some much needed inspiration, just great all round....'*

Alistair Mitchell, Le Rocquier School, Jersey

## Teaching Geography

The journal for secondary teachers, *Teaching Geography* helps keep you informed on classroom practice, resources and professional development opportunities. In print and online, it is available as part of a GA membership subscription, and includes:

- articles showing how schools and colleges are implementing change
- a file of research work
- a teaching file with activities and resources
- a forum section
- regular features on ICT, assessment, CPD
- reviews of new resources.

*'Am so glad I went – my head has been buzzing with ideas ever since!'*

Simon Abel, Head of Geography, St George Catholic School, Southampton.

## Investigating Geography

**16-18 April, University of Manchester**  
This year's conference will focus on exploring:

- how students can investigate geography both in and out of the classroom
  - how geographical education can be investigated through research
  - how academic geographers extend understanding through their investigations
- As well as this high quality, low cost CPD, the GA Annual Conference also offers access to a fantastic exhibition of geography resources and unrivalled opportunities for networking with around 700 colleagues from across the UK and overseas.

Online booking is available at [www.geography.org.uk/conference](http://www.geography.org.uk/conference)

## Regional Conferences Living Geography with the GA

**Central London 27 January 2009**

**York 9 June 2009**

**Cardiff 29 September 2009**

**North Wales 13 October 2009**

**Belfast 3 November 2009**

Aimed at KS3-4 and focusing on Living Geography, these full-day events will build upon the effective practice developed during the Action Plan for Geography. Living Geography embraces 'young people's geographies', from local to global. It encourages environmental investigation and a critical understanding of current key ideas and concepts.

Online booking is available at [www.geography.org.uk/regional\\_conferences](http://www.geography.org.uk/regional_conferences)

## Theory into Practice

Series editors:  
**Graham Butt and Mary Biddulph**

Price **£7.99 (GA members), £10.99 (non-members)**

These short, readable texts by experts in each field cover a good range of topics to lead in-house CPD. The full range of 14 books should be available in every geography department:

- Cases and Places
- Dramatically Good Geography
- Extending Writing Skills
- Global Citizenship Education
- Immaculate Misconceptions
- Into the Black Box: Observing Classrooms
- Maps with Latitude
- Moral Dilemmas
- Mysteries Make You Think!
- New Approaches to Fieldwork
- Place, 'Race' and Teaching Geography
- Understanding Place as a Process
- Voices and Choices in Coursework
- WebQuests in Geography.

Visit [www.geography.org.uk/projects/gtip/library/theoryintopractice](http://www.geography.org.uk/projects/gtip/library/theoryintopractice) to try before you buy!

# Enrichment resources for students

## Top Spec Geography series

Available from Spring 2010

Series editors: Bob Digby and Sue Warn

This forthcoming post-16 series will match closely with the new specifications to provide up-to-date, relevant information for A-level students. The books will be co-authored by teams of two, an academic expert in the field and a practising sixth-form teacher, allowing the latest research to be presented in an accessible and engaging way. The series is planned to cover a range of issues from human and physical geography, including urban regeneration for the 2012 Olympics, emerging economic superpowers, flooding, health, climate change and more.

## A-Z Advancing Geography

This series takes the form of a practical and comprehensive alphabet of skills, approaches and projects which encourage independent learning. The texts approach students in an honest and accessible way, and are accompanied by original designs and illustrations which help students to engage with the books.

### A-Z Advancing Geography: Fieldwork

Dave Holmes and Dave Farbrother

Post-16

112 pages

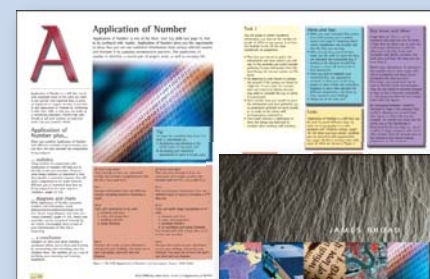

Price: £9.99 (GA members),

£14.50 (non-members)

ISBN 978-1-899085-79-8

*'This book is one for all teachers who either do fieldwork with their students or who are keen to do so, but are not sure how to go about it'*

— Review in Geographical Viewpoint

### A-Z Advancing Geography: Key Skills

James Broad

Post-16

72 pages

Price: £9.99 (GA members),

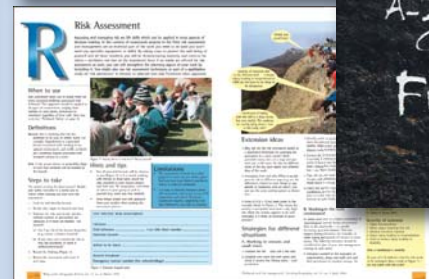

£14.50 (non-members)

ISBN 978-1-903448-10-6

This book provides an A-Z guide to the key skills in geography, including why they are useful and the best ways to learn and practise them. It focuses upon the core key skills of application of number, communication and

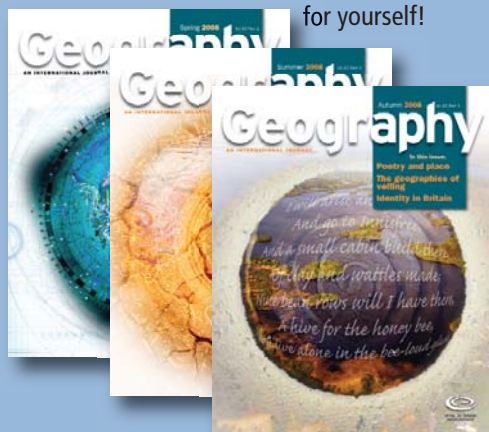

information technology as well as the wider key skills of improving own learning performance, problem solving and working with others.

A-Z Key Skills also offers guidance on: the importance and relevance of key skills for higher education and employment; portfolio building; and developing and consolidating the core key skills.

## Geography

The re-launched *Geography* remains the GA's flagship journal but now includes much material relevant to and accessible by A-level students. E-mail Nicola Donkin ([ndonkin@geography.org.uk](mailto:ndonkin@geography.org.uk)) to ask for a free copy and see for yourself!

*Geography* is available as part of a GA membership subscription.

Covering 30 themes from 'Air Quality Assessment' to 'Zero Tolerance', this book guides students through the various fieldwork techniques and skills needed for both physical and human enquiries. Generic fieldwork skills, such as note taking, sampling techniques and risk assessment are covered, as well as tactics for achieving higher grades in coursework. Worked examples and other supporting materials provide reassurance and assist students through the challenges of independent study.

The book also includes a lively introduction (with extracts from awarding body specifications), a comprehensive list of project titles and key websites to visit.

## Young People's Geographies website

Our brand new website, *Young People's Geographies*, is now up and running!

The site aims to bring together school geography and ideas from academic geography to look at practical ways in which young people and their geographies can support the ongoing process of curriculum making in school.

It contains background information about the project, videos and materials from participants, and a range of resources and ideas to help teachers introduce a YPG approach into their school.

Visit today at [www.youngpeoplesgeographies.co.uk](http://www.youngpeoplesgeographies.co.uk)

# Complete list of GA resources for key stages 3, 4 and post-16

These prices apply to orders received up to and including 31 December 2009. Prices include VAT at 17.5% where applicable. New and forthcoming resources are indicated in **bold type**.

Full descriptions of all GA resources for geography teaching can be found on the GA website at [www.geography.org.uk/shop](http://www.geography.org.uk/shop). Continuous

## Student resources: post-16

These resources are primarily for post-16 geography students, but will also be of interest to first-year undergraduates as background reading. A-level and undergraduate students will also find excellent background reading in the re-launched *Geography* journal – search the journals area of the GA website for recent issues!
