

ECE 465: Peer Evaluation Form

Your Name:

Your Group:

Describe briefly your responsibilities and contributions to the group project:

What is your single most important contribution to the group project?

In your opinion, what has your group done particularly well?

In your opinion, what could your group have done better?

What grade would you give your group as a whole (scale A-F with +/-):

Based on the presentations and other observations you may have made, which group delivered the best project?

In the table below fill in the names of all your team mates (including yourself). Then, answer the questions in the table.

Name (write in names of your team mates)	1:	2:	3:	4:	5:
Including all aspects of the project, estimate the contribution of each group member. Express this contribution as a percentage; the percentages have to add up to 100%. E.g., if you think all five team members contributed equally, write 20% in all columns. Consider both quantity and quality of the contribution.					
What grade would you give each group member? (scale A-F with +/-)
