Attach this form to the back of your Form 540, Form 540A, Long Form 540NR, or Form 541. Also, fill in the circle for underpayment of estimated tax located on Form 540, line 67; Form 540A, line 40; Long Form 540NR, line 73; or Form 541, line 42, whichever applies.

Name(s) as shown on return

SSN, ITIN, or FEIN

IMPORTANT: In most cases, the Franchise Tax Board (FTB) can figure the penalty for you and you do not have to complete this form. See General Information B.

If you meet any of the following conditions, you do not owe a penalty for underpayment of estimated tax. Do not complete or file this form if:

- The amount of your tax liability (not including tax on lump-sum distributions) less credits (including the withholding credit) but not including estimated tax payments for either 2005 or 2006 was less than \$200 (or less than \$100 if married filing a separate return).
Your 2005 return was for a full 12 months (or would have been if you were required to file) and you did not have any tax liability on that return.
The amount of your withholding plus your estimated tax payments, if paid in the required installments, is at least 90% of the tax shown on your 2006 return or 100% of the tax shown on your 2005 return (110% if AGI was more than \$150,000 or \$75,000 if married filing a separate return) AND you are not using the annualized income installment method.

Part I Questions. All filers must complete this part.

If "Yes," enter the uneven amounts withheld on the spaces provided below. Enter the actual uneven amounts withheld next to the corresponding quarterly payment due date here: 4/15/06 \$; 6/15/06 \$; 9/15/06 \$; 1/15/07 \$

Short Method

Caution: See the instructions to find out if you can use the short method. If you answered "Yes" to Question 2 in Part I, skip this part and go to Part III. If you answered "No" to Question 2 in Part I and you cannot use the short method, go to Worksheet II in the instructions (page 4).

Table for short method calculation with 13 rows, including total underpayment for the year and final penalty calculation.

Part III Annualized Income Installment Method Schedule.

Use this schedule ONLY IF you earned taxable income at an UNEVEN RATE during 2006 (See Example A). If you earned your income at approximately the same rate each month (See Example B), then you should not complete this schedule. If you choose to figure the penalty, see the instructions for Worksheet II — Regular Method to Figure Your Underpayment and Penalty, on page 4 of the instructions.

Example A: If you were a commissioned salesperson who earned no income during the first three months of the year, earned most of your income during the following six months, and earned very little during the last three months, you should complete this schedule. You may be able to benefit by using the annualized income installment method. The required installment of estimated tax figured using the annualized method may be less than your required installment figured using the equal installment method.

Example B: If you worked all year and earned a monthly salary that did not change much during the year, you should not complete this schedule.

Note: To complete this schedule correctly, you must first complete Side 1, Part II, line 1 through line 6.
