Local Service Request (LSR) Error Messages (TCIF 7)

Final Version for Release 11.0 – December 30, 2002

Column 1 – Error Code – This column contains the number of the error message that is returned to the user.

Column 2 – Service Type – This column contains the severity of the error.

REJ– Errors classified as "REJECTS" or "FATAL" will be returned to the CLECs and a new LSR should be sent with the error corrected.

ERR (LCSC Review) – Errors in this classification are sent to the LCSC for review. The LCSC will determine whether they can correct it. If they cannot, the LSR will be returned to the CLEC and the CLEC will have to return a supplement with the corrected information.

AUTO(Auto Clarification) – Errors in this category will be returned to the CLECs and a supplement will have to be sent with the corrected information.

Column 3 – Error Message Text – This is the error message that is returned.

Changes in messages are in bold face.
