## Walnut Creek School District Fifth Grade Report Card

<b>Academic Year:</b>	2005 - 2006

## **School Name:**

Academic Legend: Grade Level Expectations for the End of the Trimester	
Exceeds Standards - Consistently grasps, applies and extends key concepts, processes and skills. Works beyond stated goals.	ES
<b>Meets Standards</b> - <i>Grasps and applies</i> key concepts, processes and skills. Meets stated goals.	MS
<b>Approaching Standards</b> - <i>Beginning to grasp and apply</i> key concepts, processes and skills. Making less than expected progress.	AS
<b>Needs Support</b> - <i>Not grasping</i> key concepts, processes and essential skills. Area of concern that requires support.	NS
Not assessed at this time	X

Language Arts Standards	T1	T2	<b>T3</b>
Reading			
a. Reads grade level text fluently			
b. Vocabulary and concept development			
c. Literal comprehension – discerns main idea			
and concepts presented in text			
d. Inferential comprehension – draws inferences,			
conclusions and generalizations			
and supports with evidence			
e. Reads expository text for information using			
text features and organization			
f. Analyzes and responds to narrative text			
Writing			
a. Ideas: main idea supported by details			
b. Organization			
c. Voice: writing is expressive and engaging			
d. Word Choice: words are vivid and clear			
e. Sentence Fluency: sentences flow and vary			
f. Conventions: identifies and uses correct			
grammar			
g. Conventions: identifies and uses a wide range			
of correct punctuation			
h. Uses writing process to edit and revise			
<ol> <li>Spells grade level words correctly</li> </ol>			
j. Creates multiple paragraph narrative			
compositions			
k. Creates multiple paragraph persuasive			
compositions			
Creates multiple paragraph responses to literature			
m. Creates multiple paragraph research reports			
n. Writes legibly			
o. Uses technology tools to research and			
create documents			
Listening & Speaking			
a. Listens and responds critically to oral			
communication			
b. Uses effective techniques of oral language in			
discussions and presentations			
Houghton Mifflin Summative Test % correct			

Student Name:		
Teacher Name:		

Attendance	T1	<b>T2</b>	<b>T3</b>
Total Days			
Days Tardy			
Days Absent			

a. Mastery of basic math facts (+ - x +) b. Estimates and rounds numbers c. Converts fractions, decimals and percents d. Prime factorization e. Multi-digit whole numbers (+ - x +) f. Fractions (+ - x +) g. Decimals (+ - x +) h. Negative Integers (+ - x +) Algebra & Functions a. Interprets variables in algebraic equations b. Graphs ordered pairs c. Solves linear functions  Geometry & Measurement a. Area b. Perimeter c. Surface area d. Volume e. Uses tools to measure / draw geometric figures f. Uses knowledge of angles to solve problems  Statistics, Data Analysis & Probability a. Mean, median and mode b. Collects and organizes data on a graph c. Interprets data from a graph to solve problems  Mathematical Reasoning a. Uses a variety of methods to solve problems b. Solves multi-step problems by breaking down into simpler parts	Mathematics Standards	T1	<b>T2</b>	Т3
a. Mastery of basic math facts (+ - x +) b. Estimates and rounds numbers c. Converts fractions, decimals and percents d. Prime factorization e. Multi-digit whole numbers (+ - x +) f. Fractions (+ - x +) g. Decimals (+ - x +) h. Negative Integers (+ - x +) Algebra & Functions a. Interprets variables in algebraic equations b. Graphs ordered pairs c. Solves linear functions  Geometry & Measurement a. Area b. Perimeter c. Surface area d. Volume e. Uses tools to measure / draw geometric figures f. Uses knowledge of angles to solve problems  Statistics, Data Analysis & Probability a. Mean, median and mode b. Collects and organizes data on a graph c. Interprets data from a graph to solve problems  Mathematical Reasoning a. Uses a variety of methods to solve problems b. Solves multi-step problems by breaking down into simpler parts	< indicates area of need			
b. Estimates and rounds numbers c. Converts fractions, decimals and percents d. Prime factorization e. Multi-digit whole numbers (+ - x +) f. Fractions (+ - x +) g. Decimals (+ - x +) h. Negative Integers (+ - x +) Algebra & Functions a. Interprets variables in algebraic equations b. Graphs ordered pairs c. Solves linear functions  Geometry & Measurement a. Area b. Perimeter c. Surface area d. Volume e. Uses tools to measure / draw geometric figures f. Uses knowledge of angles to solve problems  Statistics, Data Analysis & Probability a. Mean, median and mode b. Collects and organizes data on a graph c. Interprets data from a graph to solve problems  Mathematical Reasoning a. Uses a variety of methods to solve problems b. Solves multi-step problems by breaking down into simpler parts	Number Sense			
c. Converts fractions, decimals and percents d. Prime factorization e. Multi-digit whole numbers (+ - x ÷) f. Fractions (+ - x ÷) g. Decimals (+ - x ÷) h. Negative Integers (+ - x ÷) Algebra & Functions a. Interprets variables in algebraic equations b. Graphs ordered pairs c. Solves linear functions  Geometry & Measurement a. Area b. Perimeter c. Surface area d. Volume e. Uses tools to measure / draw geometric figures f. Uses knowledge of angles to solve problems  Statistics, Data Analysis & Probability a. Mean, median and mode b. Collects and organizes data on a graph c. Interprets data from a graph to solve problems  Mathematical Reasoning a. Uses a variety of methods to solve problems b. Solves multi-step problems by breaking down into simpler parts	a. Mastery of basic math facts (+ - x ÷)			
d. Prime factorization  e. Multi-digit whole numbers (+ - x ÷)  f. Fractions (+ - x ÷)  g. Decimals (+ - x ÷)  h. Negative Integers (+ - x ÷)  Algebra & Functions  a. Interprets variables in algebraic equations  b. Graphs ordered pairs  c. Solves linear functions  Geometry & Measurement  a. Area  b. Perimeter  c. Surface area  d. Volume  e. Uses tools to measure / draw geometric figures  f. Uses knowledge of angles to solve problems  Statistics, Data Analysis & Probability  a. Mean, median and mode  b. Collects and organizes data on a graph  c. Interprets data from a graph to solve problems  Mathematical Reasoning  a. Uses a variety of methods to solve problems  b. Solves multi-step problems by breaking down into simpler parts	b. Estimates and rounds numbers			
e. Multi-digit whole numbers (+ - x ÷)  f. Fractions (+ - x ÷)  g. Decimals (+ - x ÷)  h. Negative Integers (+ - x ÷)  Algebra & Functions  a. Interprets variables in algebraic equations  b. Graphs ordered pairs  c. Solves linear functions  Geometry & Measurement  a. Area  b. Perimeter  c. Surface area  d. Volume  e. Uses tools to measure / draw geometric figures  f. Uses knowledge of angles to solve problems  Statistics, Data Analysis & Probability  a. Mean, median and mode  b. Collects and organizes data on a graph  c. Interprets data from a graph to solve problems  Mathematical Reasoning  a. Uses a variety of methods to solve problems  b. Solves multi-step problems by breaking down into simpler parts	c. Converts fractions, decimals and percents			
f. Fractions (+ - x ÷) g. Decimals (+ - x ÷) h. Negative Integers (+ - x ÷) Algebra & Functions a. Interprets variables in algebraic equations b. Graphs ordered pairs c. Solves linear functions  Geometry & Measurement a. Area b. Perimeter c. Surface area d. Volume e. Uses tools to measure / draw geometric figures f. Uses knowledge of angles to solve problems  Statistics, Data Analysis & Probability a. Mean, median and mode b. Collects and organizes data on a graph c. c. Solves linear functions  Geometry & Measurement  a. Area  b. Perimeter  c. Surface area d. Volume e. Uses tools to measure / draw geometric figures f. Uses knowledge of angles to solve problems  Statistics, Data Analysis & Probability a. Mean, median and mode b. Collects and organizes data on a graph c. Interprets data from a graph to solve problems  Mathematical Reasoning a. Uses a variety of methods to solve problems b. Solves multi-step problems by breaking down into simpler parts	a. Interprets variables in algebraic equations			
a. Area b. Perimeter c. Surface area d. Volume e. Uses tools to measure / draw geometric figures f. Uses knowledge of angles to solve problems  Statistics, Data Analysis & Probability a. Mean, median and mode b. Collects and organizes data on a graph c. Interprets data from a graph to solve problems  Mathematical Reasoning a. Uses a variety of methods to solve problems b. Solves multi-step problems by breaking down into simpler parts	b. Graphs ordered pairs			
a. Area b. Perimeter c. Surface area d. Volume e. Uses tools to measure / draw geometric figures f. Uses knowledge of angles to solve problems  Statistics, Data Analysis & Probability a. Mean, median and mode b. Collects and organizes data on a graph c. Interprets data from a graph to solve problems  Mathematical Reasoning a. Uses a variety of methods to solve problems b. Solves multi-step problems by breaking down into simpler parts	c. Solves linear functions			
b. Perimeter c. Surface area d. Volume e. Uses tools to measure / draw geometric figures f. Uses knowledge of angles to solve problems  Statistics, Data Analysis & Probability a. Mean, median and mode b. Collects and organizes data on a graph c. Interprets data from a graph to solve problems  Mathematical Reasoning a. Uses a variety of methods to solve problems b. Solves multi-step problems by breaking down into simpler parts	Geometry & Measurement			
c. Surface area d. Volume e. Uses tools to measure / draw geometric figures f. Uses knowledge of angles to solve problems  Statistics, Data Analysis & Probability a. Mean, median and mode b. Collects and organizes data on a graph c. Interprets data from a graph to solve problems  Mathematical Reasoning a. Uses a variety of methods to solve problems b. Solves multi-step problems by breaking down into simpler parts	a. Area			
d. Volume e. Uses tools to measure / draw geometric figures f. Uses knowledge of angles to solve problems  Statistics, Data Analysis & Probability a. Mean, median and mode b. Collects and organizes data on a graph c. Interprets data from a graph to solve problems  Mathematical Reasoning a. Uses a variety of methods to solve problems b. Solves multi-step problems by breaking down into simpler parts	b. Perimeter			
e. Uses tools to measure / draw geometric figures  f. Uses knowledge of angles to solve problems  Statistics, Data Analysis & Probability  a. Mean, median and mode  b. Collects and organizes data on a graph  c. Interprets data from a graph to solve problems  Mathematical Reasoning  a. Uses a variety of methods to solve problems  b. Solves multi-step problems by breaking down into simpler parts				
figures  f. Uses knowledge of angles to solve problems  Statistics, Data Analysis & Probability  a. Mean, median and mode  b. Collects and organizes data on a graph  c. Interprets data from a graph to solve problems  Mathematical Reasoning  a. Uses a variety of methods to solve problems  b. Solves multi-step problems by breaking down into simpler parts	d. Volume			
f. Uses knowledge of angles to solve problems  Statistics, Data Analysis & Probability  a. Mean, median and mode  b. Collects and organizes data on a graph  c. Interprets data from a graph to solve problems  Mathematical Reasoning  a. Uses a variety of methods to solve problems  b. Solves multi-step problems by breaking  down into simpler parts	e. Uses tools to measure / draw geometric			
a. Mean, median and mode b. Collects and organizes data on a graph c. Interprets data from a graph to solve problems  Mathematical Reasoning a. Uses a variety of methods to solve problems b. Solves multi-step problems by breaking down into simpler parts	figures			
a. Mean, median and mode b. Collects and organizes data on a graph c. Interprets data from a graph to solve problems  Mathematical Reasoning a. Uses a variety of methods to solve problems b. Solves multi-step problems by breaking down into simpler parts	f. Uses knowledge of angles to solve problems			
b. Collects and organizes data on a graph c. Interprets data from a graph to solve problems  Mathematical Reasoning a. Uses a variety of methods to solve problems b. Solves multi-step problems by breaking down into simpler parts	Statistics, Data Analysis & Probability			
c. Interprets data from a graph to solve problems  Mathematical Reasoning  a. Uses a variety of methods to solve problems  b. Solves multi-step problems by breaking down into simpler parts	a. Mean, median and mode			
a. Uses a variety of methods to solve problems b. Solves multi-step problems by breaking down into simpler parts	b. Collects and organizes data on a graph			
a. Uses a variety of methods to solve problems b. Solves multi-step problems by breaking down into simpler parts	c. Interprets data from a graph to solve problems			
b. Solves multi-step problems by breaking down into simpler parts	Mathematical Reasoning			
down into simpler parts	a. Uses a variety of methods to solve problems			
	b. Solves multi-step problems by breaking			
District grade level post test % correct X X X	down into simpler parts			
District grade level post test % correct X X				
	District grade level post test % correct	X	X	

History/Social Science Standards	<b>T1</b>	T2	<b>T3</b>
a. Geography of the United States			
b. United States history			

## WCSD Fifth Grade Report Card

## **Student Name:**

(Academic Legend: Page 1)

Science Standards	T1	T2	Т3
a. Physical – elements and their combinations			
b. Life – plants and animal systems			
c. Earth – weather and water cycle			
d. Earth – solar system and planetary movement			
e. Actively engages in investigations / activities			

Visual & Performing Arts	<b>T1</b>	<b>T2</b>	<b>T</b> 3
a. Demonstrates knowledge through active			
participation in art			
b. Demonstrates knowledge through active			
participation in music			

Assessment Legend: Grade Level Expectations	
Demonstrates strength	+
Developing satisfactorily	S
Needs Support	<

Physical Education	<b>T1</b>	T2	<b>T3</b>
a. Demonstrates competence in many			
movement activities			
b. Maintains a level of physical fitness including			
muscular strength and aerobic exercise			

Social Growth	T1	T2	T3
a. Follows class rules			
b. Follows school / playground rules			
c. Accepts new situations			
d. Works and interacts well with others			
e. Resolves own conflicts			
f. Verbalizes feelings rather than acting out			
g. Accepts direction and instruction			
h. Demonstrates responsible social / personal			
behavior while participating in art			
i. Demonstrates responsible social / personal			
behavior while participating in music			
j. Demonstrates responsible social / personal			
behavior while participating in PE			

Work & Study Skills	<b>T1</b>	<b>T2</b>	<b>T3</b>
a. Contributes to classroom activities			
b. Exhibits organizational skills			
c. Completes class assignments in a timely			
manner			
d. Completes and returns homework on time			
e. Exhibits neat and legible work			
f. Works independently			
g. Demonstrates effort			
h. Accepts responsibility for individual learning			
i. Follows oral and written instructions /			
classroom routines
