

CPR/First Aid

New for 2015-2016

An infant CPR skill has been added.

Clarification has been added about competitors competing in the highest level of their training.

Rating sheets have been updated to include a possible 0 score for each step of procedure.

The 70% mastery for each skill has been added to the rating sheet so that competitors and advisors know what score is required for mastery.

10/17/15: Rating sheet for Skill IX is now included. Mastery and total score has been re-calculated for Skill XI.

Purpose: To provide the HOSA member with an opportunity to develop and demonstrate knowledge and skills in team first aid and basic life support for health providers.

Description This event will consist of two rounds of competition for a 2-person team. Round One is a written, multiple-choice test of knowledge and understanding. The top scoring teams will advance to Round Two for the performance of selected skill(s) identified in a written scenario. The scenario will require the use of critical thinking skills. The performance will be timed and evaluated according to the event guidelines.

Dress Code: Competitors shall wear proper business attire or official HOSA uniform, or attire appropriate to the occupational area, during the orientation and written test. Competitors will wear attire appropriate to the occupational area during the skill(s) – jeans and shorts are not acceptable. Bonus points will be awarded for [proper dress](#).

- Rules and Procedures**
1. Competitors in this event must be active members of HOSA-Future Health Professionals, in good standing in the category in which they are registered to compete (Secondary or Postsecondary/Collegiate). **Competitors should compete in skill events at the highest level of their training.** For example, competitors who are trained as first responders should compete in CPR/First Aid and not CERT Skills, and competitors in EMT training should compete in EMT and not CPR/First Aid.
 2. Competitors must be familiar with and adhere to the "[General Rules and Regulations of the National HOSA Competitive Events Program](#) (GRR)."
 3. The test will consist of fifty (50) multiple choice items. The scores of the two team members will be averaged for one composite score and will be used as a part of the final score for the event.

Round One: **Written Test Plan**

- | | |
|--|-----|
| Anatomy and Physiology | 15% |
| Basic Life Support for Healthcare Providers..... | 40% |
- General Concepts
 - BLS/CPR for Adults, Children and Infants
 - AED for Adults, Children and Infants
 - CPR with Advanced Airway
 - Mouth-to-Mouth/Rescue Breathing
 - Relief of Choking

First Aid45%

- Basics
- Medical Emergencies
- Injury Emergencies
- Environmental Emergencies

4. All competitors shall report to the site of the event orientation at the time designated. The Round One test will immediately follow the orientation. **No proxies will be allowed for the orientation.**
5. [Test Instructions](#): There will be a maximum of **60 minutes** to complete the test. There will be a verbal announcement when there are 15 minutes remaining for the test period.

NOTE: *States/regions may use a different process for testing, to include but not limited to pre-conference testing, online testing, and testing at a computer. Check with your Area/Region/State for the process you will be using.*

6. All official references are used in the development of the written test. The specific reference selected for each skill is listed in the Facilities, Equipment and Materials section of these guidelines.
 - [American Heart Association, Basic Life Support for Healthcare Providers, Latest edition. Distributed by Channing L. Bete Co., Inc.](#)
 - [American Heart Association, Heartsaver First Aid CPR AED. Latest edition.](#)
 - [Simmers, Louise. DHO: Health Science. Cengage Learning, Latest Edition.](#)
7. Each team must consist of two members. The composite test score from Round One will be used to qualify the team for the Round Two skills. These skills include one First Aid skill and one BLS skill. Rescuer 1 initiates the first aid skill while Rescuer 2 initiates the BLS skill. After the first aid victim has been treated, Rescuer 1 will assist Rescuer 2.

First Aid Skills – Rescuer 1 Initiated

- Skill I: Severe Bleeding and Shock
- Skill II: Choking
- Skill III: Compound Fracture and Splinting
- Skill IV: Severe Burns
- Skill V: Heat-Related Emergency

BLS for Healthcare Providers – Rescuer 2 Initiated

- Skill VI: Adult BLS/CPR
- Skill VII: Adult BLS/CPR (Rescuer 1 Assists)
- Skill VIII: Adult BLS with AED
- Skill IX: Adult BLS with AED (Rescuer 1 Assists)
- Skill X: Infant BLS/CPR
- Skill XI: Infant BLS/CPR (Rescuer 1 Assists)

8. The selected skill(s) for Round Two, in the form of a written scenario, will be presented to the competitors at the start of the skill to be performed. The timing for the skill will begin when the scenario is presented. The scenario will be the same for each team and will include a challenging component that will require the competitors to apply critical thinking skills.

9. The scenario is a secret topic. Professional ethics demand that competitors DO NOT discuss or reveal the secret topic until after the event has concluded. Competitors who violate this ethical standard will be disqualified.
10. Competitors must complete all steps of the skill listed in the guidelines even if the steps must be simulated/verbalized. (If the equipment is available, the competitors would complete all steps of the skill as the scenario warrants. If the equipment is NOT available, the competitors would simulate/verbalize the steps.)
11. If a competitor jeopardizes the patient's or his/her own safety or fails to perform a critical step and does not take immediate action to correct the error, the total points for the skill or specific subpart(s) of the skill will be deducted by the judge(s).
12. A **twelve (12) minute maximum time limit** has been set for reviewing the scenario and caring for the victims (skill performance). Timing will begin when the scenario is presented to the team. Competitors will be stopped at the end of the twelve (12) minute time limit.
13. In the performance of a skill scenario, competitors are required to follow the highest standard of care when treating victims. Competitors should follow the steps on the rating sheet unless the highest standard of care required differs from the steps on the rating sheet. Judges will know when the treatment of victims/patients differs slightly from the rating sheet and when the competitors provide medically acceptable care, and will award points accordingly.

It is understood that in some situations, Rescuer 1 may need to break with the sequence of caring for the first aid victim in order to assist Rescuer 2 in a timely and appropriate manner. In such circumstances, Rescuer 1 will return to the first aid victim and complete the steps of the skill when it is medically appropriate to do so. Judges will adapt their scoring accordingly.
14. The team must earn a score of 70% or higher on the combined skill (s) of the event (excluding the test) in order to be recognized as an award winner at the NLC.
15. In case of a tie, the highest averaged test score will be used to determine the rank.

Note: HOSA follows **American Heart Association** guidelines for CPR for healthcare providers. Steps may differ from those recommended by the American Red Cross. For competition purposes, competitors must follow the steps listed in the guidelines for this event.

Competitors Must Provide:

- Event guidelines – one per team (orientation)
- Pens and #2 lead pencils with eraser
- Watch with second hand (optional)

General Equipment to be provided by competitors in a first aid kit or bag:

- Cravats (5-10) (Defined as strips of cloth, triangular bandages folded into strips, roller gauze, or other similar material to tie or anchor splints in place.)
- Sterile Gauze Squares, 4" X 4", 6-10 total (may be packaged as singles, doubles, or multiples)
- Any size roller bandages (Kling/similar) 4-6 total
- One trauma dressing (ABD)
- Non-stick sterile dressing(s)
- Mouth-to-mask device AND Bag-Mask device (Adult and Infant)
- Biohazard bag
- Hand sanitizer
- Cell phone (for simulating 911 call)
- One pair of scissors
- Adhesive tape
- PPE: 10 pair of gloves, 2 sets of goggles or safety glasses

** Teams have the option of bringing one kit per person or one kit per team - and should ONLY bring the materials listed above.*

Required Personnel

- 1) One Event Manager per event
- 2) One Section Leader per section
- 3) Judges: two judges (one for each rescuer)
 - a) The judge for the first aid skill(s) must have first aid certification
 - b) The judge for the BLS/AED skills should be AHA instructor certified
 - c) EMT's and Paramedics may judge either problem
 - d) RN's with emergency training and the above certification may judge either problem
- 4) Proctors for testing
- 5) One-two event assistants per section
- 6) Timekeepers (if necessary)
- 7) Moulage Specialist (if necessary)
- 8) One QA to provide quality assurance for the event by ensuring that the guidelines are followed and all event documents are complete.

Facilities, Equipment and Materials (Per Section)**General**

- Clinical and/or laboratory stations for selected skills
- Written scenario
- Patient and judge scripts as needed
- Calculators, note pads, and pencils for judges
- Stopwatch
- Moulage supplies (as required by the scenario)
- Assorted props, which may include pillows and/or blankets
- Rating sheets – one per judge per competitor
- Evaluation Forms – competitor, judge, and personnel
- #2 lead pencils with eraser to complete evaluations

Round One Written Test (Reference: all resources)

- One pre-numbered test copy per competitor
- Scantron / answer forms.

Skill I: Severe Bleeding and Shock (*Heartsaver First Aid CPR AED, AHA 2011*)

- One victim (check the scenario for particulars)
- Moulage or latex bleeding wound

Skill II: Choking (*BLS for Healthcare Providers, AHA 2011*)

- One victim (check the scenario for particulars)
- Pillow for victim – the person playing the role of the victim should wear an extra large, loose fitting shirt so that a pillow can be placed under his/her shirt for protection, in the unlikely event that the competitor actually performs an abdominal thrust. It should be made clear to the competitor that the victim is NOT obese or pregnant.

Skill III: Compound Fracture and Splinting (*Heartsaver First Aid CPR AED, AHA 2011*)

- One victim (check the scenario for particulars)
- Moulage or latex fracture/wound
- Cold pack or bag and ice
- Towel
- Props or devices that can be used for splinting

Skill IV: Severe Burns (*Heartsaver First Aid CPR AED, AHA 2011*)

- One victim (check the scenario for particulars)

Skill V: Heat-Related Emergency (*Heartsaver First Aid CPR AED, AHA 2011*)

- One victim (check the scenario for particulars)
- Cool water spray bottle
- Water
- Juice or sports drink

Skill VI and VII: Adult BLS/CPR (*BLS for Healthcare Providers, AHA 2011*)

- CPR Manikin

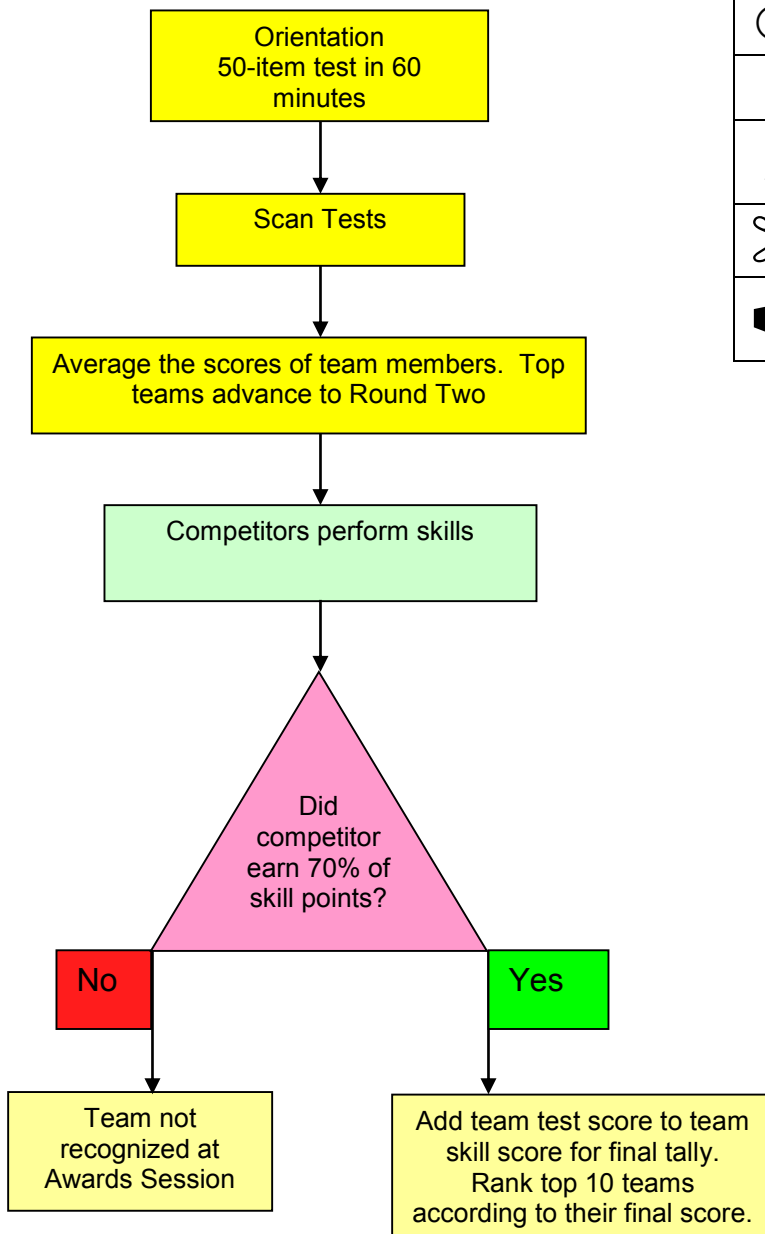

Skill VIII and IX: Adult BLS with AED (*BLS for Healthcare Providers, AHA 2011*)

- CPR Manikin
- AED (with appropriate size batteries)

Skill X and XI: Infant BLS/CPR (*BLS for Healthcare Providers, AHA 2011*)

- Infant Manikin
