ARCHITOURS'11

Back by popular demand, the Institute will be organising a series of ArchiTours based on 3 different categories (**Architect Open Offices, Residential and Award Winning Buildings**). The **Architect Open Offices** tours will kick start the ArchiTours and these tours will take place on **9th September and 16th September**.

The Residential and Award Winning ArchiTours will run on Saturdays in October. Do lookout for these others tours on our website (www.archifest.sg) in late September.

ARCHITECTS' OPEN OFFICES

Recognising that Youths are the builders of tomorrow's city, this programme is specially catered for students and teaching staffs of Secondary Schools, Junior Colleges & Tertiary institutions who are interested to find out more about the life and career of an Architect or Designer by visiting Architects' offices.

One of the objectives of the ArchiTours is for participants to gain a deeper understanding about the work of an Architect through a more personal interaction with the Architects themselves.

PREQUEL 1

AEDAS PTE LTD

Aedas

Aedas Pte Ltd incorporated in Singapore since 1995 (as LPT Architects Pte Ltd) has contributed significant landmarks to the Singapore Landscape – most notably, Marina Bay Sands™ Integrated Resort and 313@somerset Shopping Centre. Ongoing projects include masterplanning, commercial, residential, transportation, mixed development, institutional and interior projects. This establishes us with a diverse portfolio of works as well as a good track record of delivering some of the best projects completed in Singapore, Southeast Asia and South Asia.

The philosophy of Aedas is to achieve architecture of distinction through a commitment of excellence in professional services to further the success in creating buildings of lasting value. Aedas' architectural service centers on the Client, both as the end user and as a member of the team evolving the ultimate concept of the project. The practice's involvement begins around the meeting table – researching and identifying, in collaboration with the Client, the ultimate objectives for the project. Accurately perceiving and analyzing this information ensures that every project undertaken by Aedas' approach is a finely tuned balance of building design seeking customized solutions to create congenial environments, which have enhanced market potential, and an efficient useful life cycle. It is Aedas' maxim that each project should not only compliment, but should also make a positive contribution to its surrounding precincts.

Aedas is committed to a team approach to design and a horizontal organizational structure that encourages the development of the professional skills of each individual employee to his or her maximum potential. The company pays particular attention to the detail, design of each project to turn our Client's aspiration into a reality on time and on budget through an imaginative multi-skilled team.

CHAN SAU YAN ASSOCIATES

Chan Sau Yan Associates' (CSYA) is committed to design innovation and the integration of appropriate technology. The Firm has always been guided by a belief that the quality of the built environment has a direct influence on the quality of people's lives. It firmly believes that design excellence requires close and active collaboration of the client supported equally by the skills of the specialist consultants.

The practice believes that architecture is a creative endeavour based on pragmatic and rational guiding principles, in a modern contemporary direction that merges climate, culture, technology and sustainability in its consideration. Central to their approach is its successful execution of the projects.

Sonny Chan's extensive experience encompasses a wide range of residential, commercial, institutional, recreational and tourism related projects in the region and beyond. His experience in resort and city hotels involves working with international chain operators such as Hyatt, Sheraton, Hard Rock Hotel, Mandarin Oriental, Holiday Inn, Hilton, and other independent operators.

CSYA recently saw the completion its first office building, Tokio Marine Centre at Mccallum Street where the inspiration for the building's design came from the conceptual metaphor of a bamboo grove as well as 8 Nassim Hill, consisting of 16 units of townhouses and penthouses units.

Ongoing projects includes a resort hotel development with Hilton Hotel at Clearwater Bay Sanya and Delmonte Headquarter at Bonifacio Global City as well as 20 Trees West, 48 units of detached houses at Taman Melawati Kuala Lumpur.

The latest software and CAD technology is used in the office to design, disseminate information and for communication. The practice has highly-developed business management procedures, and has obtained the ISO 9001 since 2000.

PREQUEL 2

ONG & ONG PTE LTD

ONG&ONG 360*
group solutions

With a track record of almost 40 years in the industry, ONG&ONG has earned an unparalleled reputation for integrating skilled architecture, clever interior design, creative environmental branding and sensitive landscape design. Paramount to their success lies in their insistence on servicing their clients with creativity, excellence and commitment. Ong&Ong continually strive to uphold their mission to be the designers of our age – a premier design practice both locally and in the region. Currently operating in six cities, they are managing projects in 18 countries spread over three continents.

Partnering their clients in their race to the top, ONG&ONG now offers a complete 360° solution – i.e. a parceled cross-discipline integrated solution, encompassing all aspects of the construction business. They offer a three-pronged 360° solution; namely 360° Design + 360° Engineering + 360° Management. 360° Design encompasses urban planning, architecture, landscape, interiors and environmental branding (graphics). 360° Engineering offers civil, structural, electrical, mechanical and plumbing services. 360° Management provides development, project, construction and place management services.

In addition to projects in Singapore, ONG&ONG has also completed large-scale developments regionally. This has prompted the setting up of offices in China, Vietnam, India, Malaysia and most recently, New York City. In-depth knowledge of the local context, culture and regulations allows them to better understand the clients' needs. Ong&Ong is an ISO14001 certified practice and consistently strive to meet and exceed their clients' expectations.

LIU & WO ARCHITECTS PTE LTD

Liu&Wo Architects was established in 1984 by Mr Liu Kah Teck and Ms Wo Mei Lan. Currently, Liu&Wo Architects have a staff strength of 50 and located in 2 units of charming conservation shophouses at Duxton Hill.

Liu & Wo offers a full range of architectural services including feasibility studies, architectural and interior design, project management and town planning.

The range of experience includes residential, commercial, shopping, hotel, industrial, warehouse, refurbishment, conservation, clubs, associations, entertainment, recreational, transportations, education and health care developments. Commission includes projects in Singapore, Malaysia and China.

Liu & Wo objective is to achieve a well-balanced realization of the aesthetic form, financial usage, economical value of a building and built environment through close consultation and interaction with their clients, fellow consultants and the builders. With the attainment of ISO 9001 and ISO 14001, their office aims to achieve a higher standard of architectural services.

PREQUEL 3

ECO.ID ARCHITECTS PTE LTD

Eco.id Architects and Design Consultancy is a multi-disciplinary architectural practice that has been established since 1996. “The firm is one of Singapore’s best known outfits for hp hospitality and residential work” (Hinge Magazine).

Driven by the imagination of founding partners Sim Boon Yang and Calvin Sim, the company has captured international repute with award winners such as the Metropolitan in Bangkok, the first W resort in the Maldives and Naumi Singapore. For example, Clearwater Residences in Singapore for Hayden Properties, such as the Hamilton at Scotts. In just over a decade, the firm now has projects in Thailand, Malaysia, India, Dubai, Brunei, China and Zanzibar.

The firm comprises 89 employees, is headquartered in Singapore and has a design studio in Bangkok and a representative office in China. It has been ISO 9001- certified since July 2001. In early 1997, Eco.id Consulting Ltd was established as a corporate vehicle for regional projects outside Singapore. Their completed projects have been extensively published in design book, magazines such as the American Architectural Digest and covered by the broadcast media

DP ARCHITECTS PTE LTD

DP GREEN PTE LTD

Addressing the current needs for environmental conservation and sustainability, DP Green Pte Ltd opened its doors in July 2010. Located at Mt. Sophia, the 4200 sq ft premise houses a team of 35 comprising architects, landscape architects, and other specialists and professionals.

With a holistic approach to design in the built and natural environment, DP Green supports works in landscape architecture, architecture, urban design and interior design and in the future, perhaps consultancy on environmental sciences and ecological studies. Full arborist consultancy services are also offered. DP Green's portfolio includes Grand Park Orchard, the luxurious hotel in the heart of Orchard Road; Jardin, the upcoming residential development that fully explores the concept of high-rise garden living; and Hotel Fort Canning, a celebration of the conserved building's heritage and the history of Fort Canning Park.

DP Green aims to take a fresh aesthetical and artisanal approach in creating works that fuse these design disciplines harmoniously.

PREQUEL 4

CPG CONSULTANTS PTE LTD

CPG Consultants is a subsidiary of CPG Corporation (CPG Corp), one of the leading providers of development and management services for the infrastructure and building industry.

Headquartered in Singapore with offices in China, India, Vietnam, Macau, Philippines and the Middle East, CPG Consultants provides the full spectrum of professional design and development consultancy services including master planning, architectural design & consultancy, engineering, quantity surveying and project management services.

Our diverse portfolio in over 20 countries includes airports, cultural, arts & heritage institutions, educational & research facilities, healthcare facilities, residential projects, industrial projects, infrastructural facilities, office & commercial complexes, and sports & recreational facilities.

MKPL Architects is an architectural firm formed in March 1995 led by directors Siew Man Kok (Chairman), Cheng Pai Ling (Managing Director) and John Andrews McLaughlin (Director) with a team of architects, creative, technical and administrative staffs. The current staff strength is 36. With the aim of combining master planning, architecture, landscape, interior and furniture design to produce a total design product. The firm's design philosophy focuses on creating strong, clear architectural forms and spaces that are comfortable and livable, viewing the vernacular and regional culture as a rich resource that can suggest appropriate solutions and references. Advances in technology and construction are also embraced as opening exciting possibilities in ways of living and interacting with the environment.

The underlying conviction is that Architecture is important to our everyday lives. It influences the way we live, work and play. On a broader perspective, it reflects and even inspires new perceptions and appreciation of our physical environment.

MKPL Architects brings to every design brief a fresh perspective - through extensive discussion with clients to fully understand their needs; through brainstorming to synthesize the needs into an architecturally strong solution. Every design is site and programme specific. The architecture is always seeking an underlying distillation of the complex to achieve the simple and will be evidenced by the distinct components and the unifying wholeness.

ABOUT ARCHIFEST'11

Singapore Institute of Architects (SIA) is organising the 5th ArchiFest this October. **ArchiFest '11** will be launched on 3 Oct (Mon) to coincide with World Architecture Day and the month long festival will include 4 key components - Forum, ArchiTours, Happy Cities Exhibition and Fringe Events by Festival Partners.

This year ArchiFest looks at the notion of **Common Spaces**. We are curious of how the nature of shared spaces and experiences are shaped by conditions of our current global environment. This subject is examined in three key aspects of common spaces - our physical surrounding, media and virtual space and our psychological one.

REGISTRATION FOR ARCHITECTS' OPEN OFFICES

- Download the registration form from 'www.archifest.sg' or [HERE](#).
- Kindly attach the cheque/ bank draft to the registration form or make payment at SIA.
- Attach a photocopy of the student pass (For Full-time students only)
