## Plumbing Contractor Invoice Template (Landscape) Features and Facts

---

Plumbing Contractor Invoice Template (Landscape) is a variant of c2008 **Plumbing Contractor Invoice Template**. It differs from the original Excel invoice template in that the layout is suitable for printing on A4 paper in landscape orientation.

The original version (c2008) Plumbing Contractor Invoice Template contains 2 columns and 12 lines for you to detail the materials used and service performed. Some plumbers needs less lines on the invoice body, but hope each line could be longer to detail the job / work they have been done. That's why InvoicingTemplates.com designed this variant of Plumbing Contractor Invoice Template. With this new design, the layout of the invoicing form is similar to the original one, but we've set paper orientation to be landscape. This is done on the Page Setup dialog box.

Like Microsoft Word, Microsoft Excel allows you to set paper options through its Page Setup dialog box. In Excel 2003, the Page Setup dialog box can be opened by clicking Excel menu File > Page Setup. With Excel 2007, Excel 2010 and Excel 2013, the command for opening Page Setup dialog box can be accessed through Page Layout ribbon tab > Page Setup group and then click the arrow button on the group. The Page Setup dialog box offers various options for you to control the printing and layout of **Plumbing Contractor Invoice Template (Landscape)**.

After setting the paper orientation, we adjust the column widths to make them suitable for the new paper.

To adjust the width of one column for **Plumbing Contractor Invoice Template (Landscape)**, drag the boundary on the right side of the column heading until the column is the width that you want. To change the width of multiple columns for **Plumbing Contractor Invoice Template (Landscape)**, select the columns that you want to change, and then drag a boundary to the right of a selected column heading. To change the width of columns to fit the contents for **Plumbing Contractor Invoice Template (Landscape)**, select the column or columns that you want to change, and then double-click the boundary to the right of a selected column heading.

To make the invoice form still being printable on single page, 6 lines were removed / hide from the invoice detail section.

Before you can hide a row, make sure the Invoice worksheet of **Plumbing Contractor Invoice Template (Landscape)** is unprotected and row / column headings are shown. To hide a single row in **Plumbing Contractor Invoice Template (Landscape)**, first right click on the row header of the row to be hidden; Choose Hide from the menu; The selected row and the row number will be hidden from view. To hide adjacent rows in the worksheet, for example, you want to hide rows 14, 15, and 16 in the **Plumbing Contractor Invoice Template (Landscape)**: In the row header drag select to highlight all of the rows you want to hide; Right click on the selected rows; Choose Hide from the menu; The selected rows and row numbers will be hidden from view. To hide separated rows in **Plumbing Contractor Invoice Template (Landscape)**, for example, you want to hide rows 3, 5, and 7: In the row header left click on the first row to be hidden; Press and hold down the CTRL key on the keyboard; Continue to hold down the CTRL key and left click on the rest of rows to be hidden; Right click on one of the selected rows; Choose Hide from the menu; The selected rows and row numbers will be hidden from view of **Plumbing Contractor Invoice Template (Landscape)**.

One thing to note is that InvoicingTemplates.com tested the templates, including Plumbing Contractor Invoice Template (Landscape), on Microsoft Windows only, and the testing on Mac was usually not performed. If you need to run Plumbing Contractor Invoice Template (Landscape) on Mac, test it with Mac version of Microsoft Excel before you apply it for production purpose.

While the free version of Plumbing Contractor Invoice Template (Landscape) is simple, the result invoice created by using this template is as beautiful and professional as many commercial invoicing software program, or even better. It is an ideal tool for small businesses and freelancers who offer services and don't need a shipping section on their invoicing form. It is a good service invoice creator, but if you need more features, like management of customers, products / service items, invoices and payments, just install Uniform Invoice Software to make all the buttons on Plumbing Contractor Invoice Template (Landscape) work for you.
