

# Cardinal After-School Program

## Permission Slip

2014-2015

Dear Parent/Guardian,

Throughout the past years of our Cardinal After-School Program students have had the opportunity to enhance their learning outside of the school building and off school grounds. These opportunities have allowed students to expand what they are learned in the classroom with exciting and hands on experiences. Some examples of such opportunities that have taken place in the past include monthly visits to the Necedah National Wildlife Refuge, visits to the Necedah Community Siegler Memorial Library and a variety of other opportunities not on school grounds. These opportunities provide a 'new' environment to learn and broaden their involvement in their community. In most cases, the opportunity allows students to work on homework, continue with the reading/math groups and assist with the enrichment/self-development component within our program. At minimum an activity off school grounds will be scheduled once a month.

This permission form is for your student to participate in these opportunities. To assure that you are well informed of the activities scheduled off-school ground announcements will be posted in the biweekly newsletter. We hope you understand the value of your student's involvement in these opportunities and the advantages they will bring to his/her learning and self-development.

If you choose to not have your daughter/son participate in this activity he/she will remain at school with After-School Program staff.

**I hereby give my daughter(s)/son(s) \_\_\_\_\_ permission to participate in activities scheduled off school grounds during the school year as part of the Cardinal After-School Program.**

\_\_\_\_\_  
**Parent/Guardian Signature**

\_\_\_\_\_  
**Date**

If you have any questions, please do not hesitate to contact Linda Lowery, After-School Program Coordinator, at 565-2256 ext. 105.
