ICD-10 IS COMING--ARE YOU READY?

Why Is the Program Necessary: The diagnosis coding system is changing from ICD-9-CM to ICD-10-CM. Physicians and Qualified Healthcare Professionals need to understand the new system for documentation, coding, and reimbursement purposes. This more specific coding system will also provide better data collection to help prepare for future healthcare costs and research purposes.

Learning Objective: Physicians and Qualified Healthcare Professionals will understand the new coding conventions and the degree of specificity required in the patient's notes and apply this knowledge to the complete and accurate code selection.

Course Outline:

The two (2) hour session will cover the following areas:

- Why the Change?
- Clinical Documentation Improvement
- Impact of the Change to your practice
- Steps to a Smooth Transition -
- ICD-10-CM Coding Conventions and Official Guidelines
- Understanding the GEM Mapping & ICD-10-CM Crosswalks
- Clinical Documentation Improvement including but not limited to changes to:
- Hypertension
- Diabetes
- Asthma
- Well visits
- Learn More About It
- Questions & Answers

The session will include a crosswalk of common ICD-10-CM codes for Osteopathic Medicine Services.

Jacqueline Thelian CPC, CPC-I, CHCA - is a highly respected and nationally recognized Healthcare Consultant, Certified Professional Coder, Auditor and ICD-10 Trainer, author and sought after speaker and educator with over three decades of experience in medical coding and practice management.

Ms. Thelian has been involved with medical billing, reimbursement and documentation issues and has taught extensively for academic medical centers, hospitals, private physician practices and various healthcare organizations.
