Evaluation		
<b>E-Excellent</b> My child was able to accurately recall details in the story and make some predictions of what most likely will happen next. My child provided rich details and thinking about the story during our book conversation.	<b>S-Satisfactory</b> My child was able to recall most details. A discussion took place about the reading material. I noticed a spot or two that was unclear to my child but our conversation about the book helped him or her understand the material.	<b>N-Needed Help/Had Difficulty</b> My child had a difficult time reading the material independently and was not able to have a discussion. I helped build understanding by rereading parts and talking about the book.
