GENERAL INSTRUCTIONS

Thank you for completing this questionnaire. This questionnaire was developed to assess the response to the road safety situation in your country. The same questionnaire will be completed by several road safety colleagues from various sectors in your country, and your National Data Coordinator will convene a consensus meeting to determine one set of answers for the country. The information collected will be compiled into a report, the Global Status Report on Road Safety, which will be published in 2009. We know that a great deal of information is being requested in this questionnaire and sincerely appreciate your efforts. Please complete the following questions to the best of your ability and bring this with you when you attend the consensus meeting, organized by your National Data Coordinator. Please follow these general instructions when completing the questionnaire.

- a) Please provide as much of the requested information as possible. However, always state if the requested data is not available. If the questions asked are about a sector that you are not familiar with, please leave the questions blank (e.g. if you are from the ministry of transport you may be unable to answer the questions on emergency medical services, in which case please leave these blank).

- b) When completing the questionnaire, please refer to the "Instructions for completing questionnaire" booklet if you are unsure of the terminology used.
- c) *Apart from questions 6.6, 6.7 and 6.8* which pertains to the city in your country with the largest population, ALL other information should be provided at the national/federal level. This means that all the questions on legislation are asked at the national level. Although in many countries sub-national governments have the power to legislate on road safety issues, this questionnaire is concerned solely with national/federal laws, policies and data.
- d) When the source of information is requested as part of a question, please provide electronic copies of documents where possible. If electronic copies are not available, please provide a paper copy. Please include copies in UN official languages¹ if possible or copies in local language otherwise.
- e) Keep a copy of the filled questionnaire and the source documents for yourself.
- f) If you need any assistance, please do not hesitate to contact your National Data Coordinator (see above for contact details).
