SAN FRANCISCO, CA 94102-3298

To: Telecommunications Carrier Filing Advice Letter

From: Telecommunications Division PAL Coordinator

Subject: Your Advice Letter Filing

The Telecommunications Division of the California Public Utilities Commission has processed your recent Advice Letter (AL) filing and is returning an AL status certificate for your records.

The AL status certificate indicates:

Advice Letter Number

Name of Filer

CPUC Corporate ID number of Filer

Subject of Filing

Date Filed

Disposition of Filing (Accepted, Rejected, Withdrawn, etc.)

Effective Date of Filing

Other Miscellaneous Information (e.g., Resolution, if applicable, etc.)

The Telecommunications Division has made no changes to your copy of the Advice Letter Filing; please review your Advice Letter Filing with the information contained in the AL status certificate, and update your Advice Letter and tariff records accordingly.

All inquiries to the California Public Utilities Commission on the status of your Advice Letter Filing will be answered by Telecommunications Division staff based on the information contained in the Telecommunications Division's PAL database from which the AL status certificate is generated. If you have any questions on this matter please contact the:

Telecommunications Division PAL Coordinator at **(415) 703-1565**, or by e-mail to ***td_pal_coordinator@cpuc.ca.gov***

PUBLIC VERSION

December 19, 2007

ADVICE 51
(U 6096-C)

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA
TELECOMMUNICATIONS DIVISION

SUBJECT: Informational Advice Letter
2008 First Quarter Report of Southern California Edison
Company for Competitive Local Exchange Projects -
Additional Construction Projects

PURPOSE

In compliance with Decision (D.) 98-12-083, Southern California Edison Company (SCE) submitted for filing Advice 50, its 2008 First Quarter Report, on December 3, 2007, which summarized the competitive local exchange construction projects that were anticipated for the first quarter. SCE has now identified and submits for filing seven additional construction projects which SCE also intends to construct in the first quarter.

BACKGROUND

In D.98-12-083, the California Public Utilities Commission (Commission) granted a certificate of public convenience and necessity (CPCN) to SCE to operate as a competitive local carrier (CLC) in the State of California. D.98-12-083 requires CLCs to implement specific mitigation measures adopted in the Mitigated Negative Declaration, attached to the Decision as Appendix D, in compliance with the California Environmental Quality Act.

Appendix D to D.98-12-083, contains the mitigation monitoring process for the CLCs' proposed projects and describes the roles and responsibilities of government agencies in implementing and enforcing the selected mitigation measures.

Mitigation Measure B of Appendix D to D.98-12-083 requires the CLCs to file a quarterly report, as an informational advice letter, one month prior to the beginning of each quarter that summarizes the construction projects that each intends to construct in the upcoming quarter. The report is to contain a description of the project and its location and a summary of the CLCs' compliance with the mitigation measures described in the Mitigated Negative Declaration. The purpose of the report is to inform the local

agencies of future projects so that coordination of projects among CLCs in the same locality can be conducted.

Mitigation Measure B requires the quarterly report to be filed with the appropriate planning agency of the locality where the project(s) will occur and as an informational advice letter with the Commission's Telecommunications Division. This informational advice letter fulfills the latter requirement.

CONFIDENTIALITY

This filing includes additional information (Attachment A hereto) to SCE's confidential 2008 First Quarter Report, which summarizes the seven additional competitive local exchange construction projects that are anticipated for the first quarter. Attachment A is not included in the version of this advice letter that is being publicly posted on www.sce.com. The complete advice filing is being submitted to the Telecommunications Division of the Commission. In accordance with General Order (GO) 96-B, the confidentiality of information included in SCE's 2008 First Quarter Report is described below. At the request of SCE, the Commission has historically treated the information contained in the quarterly reports as confidential proprietary information in accordance with Section 583 of the California Public Utilities Code.^{1/} On February 22, 2001, SCE received a letter from the Energy Division stating that it would no longer treat the information contained in the quarterly reports as confidential because to do so would "defeat the purpose of the reports, and contradict the clear (although not specifically stated) intent of the Commission." Understanding that the advice letter process may not be the proper forum to debate the issue, SCE believes that the Commission's objectives with regard to the filing are currently being met, and the Commission's treatment of the reports should remain unchanged. To this end, SCE continues to request that the information contained in Attachment A remain confidential in accordance with Section 583 of the California Public Utilities Code. The proprietary business information contained in Attachment A shall remain confidential for one year unless extended prior to the expiration of one year, or until an order of the Commission is issued designating the information not confidential. In accordance with GO 96-B, SCE previously submitted a proposed Protective Order that covers SCE's quarterly reports for competitive local exchange projects (see SCE Advice 50, and proposed Protective Order, Attachment B thereto).

The additional information (Attachment A) to SCE's confidential 2008 First Quarter Report will be made available to appropriate parties in accordance with the proposed Protective Order upon execution of the required non-disclosure agreement. Parties wishing to obtain access to Attachment A may contact Robert LeMoine in SCE's Law

^{1/} No information furnished to the Commission by a public utility, or any business which is a subsidiary or affiliate of a public utility, or a Corporation which holds a controlling interest in a public utility, except those matters specifically required to be open to public inspection by this part, shall be open to public inspection or made public except on order of the Commission, or by the Commission or a Commissioner in the course of a hearing or proceeding. Any present or former officer or employee of the Commission who divulges any such information is guilty of a misdemeanor.

Department at Robert.F.LeMoine@sce.com or (626) 302-4182 to obtain a non-disclosure agreement.

The confidential information provided in SCE's 2008 First Quarter Report cannot be aggregated, redacted, summarized, masked, or otherwise protected in a manner that would allow partial disclosure of the data, while still protecting confidential information. SCE would object to any disclosure of the confidential information in aggregated form.

To the best of my knowledge, SCE maintains as confidential the information contained in the 2008 First Quarter Report for which confidentiality is sought in this advice filing. I am informed and believe that this information is maintained by Edison Carrier Solutions and provided internally only to those employees who need to know the information to carry out their job duties. I am also informed and believe that this information has not been disclosed to any person other than employees of SCE or non-market participants (such as staff of the Commission).

TIER DESIGNATION

Pursuant to D.07-09-019, Telecommunications Industry Rule 7.1(3), this advice letter is subject to Telecommunications Division disposition and should be classified as Tier 1.

Concurrent with this filing, SCE provides the appropriate planning agencies with the portion of the quarterly report pertaining to projects in such agencies' locality. Because there are no active projects, no such notifications will be sent.

No cost information is required for this advice filing.

This advice filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other schedule or rule.

In accordance with Public Utilities Code Section 491, notice to the public is hereby given by filing and keeping the advice filing open for public inspection at SCE's corporate headquarters.
