

Sustainability
Work Session with Student Affairs Staff
04/27/11

15 Staff present from Housing (2), UPD (3), Parking (1), Campus Recreation (2), Student Center (2), Student Health Center (3), Career Services (1), Dean of Students (1)

These notes were taken from the meeting.

- Students don't know what sustainability means – it's not just about recycling. Consultants suggested:
 - Semester Themes – buy local, Habitat for Humanity
 - Green Certificates – University of Virginia issues internships and University of Georgia (45 non paid)
- How do you move maintenance staff around? Consultants answered:
 - Zip car for fleet, department vehicles, ROI is good
 - Flex vehicles, partner with Prius
- Rainwater collection systems not allowed on Texas State campus because of aesthetics.
 - Consultants suggested putting underground or screening.
- Campus Recreation would like to collect water from parking garage to help with watering of two recreation fields. Have also talked about solar to heat pools.
