- 30. Energy-conscious purchases: A 10% credit can be claimed for various energy-saving improvements made to a taxpayer's primary residence. The credit is based on the cost of these improvements including insulation, exterior windows, exterior doors, water heaters, heat pumps, central air conditioners, furnaces and hot water boilers. The credit is limited to \$500 and further dollar limits apply to specific components (for example, \$200 for exterior windows, \$150 for a furnace). You cannot take this credit if you took the credit for these items in prior years. If you made any such improvements in the tax year, indicate how much was paid and what exactly was purchased OR provide a copy of the receipt. Go to www.gcdadvisors.com/tax\_issues.php for additional information and to see what qualifies.
