

# End of Year Graduate Student Evaluation Form

Due April 30 each year

Name:

Date:

Date of Entry into Program (month and year):

The information provided will be used to evaluate your performance and progress in the graduate program over the past year (i.e., from the end of spring semester last year, May 1, through spring semester this year, April 30).

## Instructions:

1. Complete the following questions by editing directly on this form on your computer (this is a fillable PDF form)
2. Attach an **updated copy** (current through April 30) of your CV and teaching evaluations.
3. After you have filled out the form, meet with your advisor. Your faculty advisor will help you complete the "points" sections and planning section of the form. Then, provide a complete and fully-signed-off copy of this report (including CV and teaching evaluations) to the Program Chair of your university **by 5 p.m., April 30**. You should also make a copy for yourself and your advisor.

*Note.* We understand that coursework, research, and program milestones will vary from year to year. The purpose of assigning points to different activities is to provide students with information on the relative importance of different activities. There may be years when students are making progress toward their degree but do not receive any program milestone points (e.g., in between master's thesis defense and comprehensive exams). Likewise, a student may have a very active research year, without any final products. Faculty advisors should take these situations into consideration when completing the "adjustments" and "comments" areas for these sections, respectively.
